

THE DLX SHX36L DISHWASHER  
Elegant. Powerful. Convenient.

**BOSCH**

YOUR LIFE. OUR INSPIRATION.

With its uninterrupted front panel and wraparound door, the DLX SHX36L exudes a clean and elegant confidence that is only surpassed by its technology and engineering.

Our new **EASYLOAD™** racks are sure to be your new best friends. Designed in Europe, where space is always a problem, they organize your dishes in such a way as to accommodate your largest pots and your smallest teacups. And, since the top rack is adjustable, they truly take convenience to a higher level. You'll never know how you lived without them.

As for performance, the DLX SHX36L has the strength you need with flexibility to use it on your terms. With the Power Scrub Plus mode you can tackle the dirtiest of dishes or with the Top Rack Only™ mode you can save energy and time on lighter loads. And, whichever of the four wash cycles you choose, our **SENSOTRONIC™** technology keeps an ever-vigilant watch to determine if a secondary, fresh water fill is necessary, deleting the cycle when appropriate so you get the right wash, every time – all with the legendary quietness you've come to expect from Bosch.

The DLX SHX36L.  
Elegant. Powerful. Convenient.
