# CONVECTION WARMING DRAWERS

Our convection warming drawer is the perfect combination of uncompromising performance and unique convenience features. Its exclusive ceramic warming surface not only heats faster and more evenly to keep food hot until it's ready to serve—it's also easier to clean. A special convection mode offers superior heat distribution, allowing you to warm tall stacks of dinner plates evenly and quickly. We've also added a unique touch-control panel with a digital display for easy activation and temperature monitoring and kept the sides of the drawer open for easy accessibility. With a chiseled profile that perfectly complements the new Masterpiece™ Series and our fully flush-mounted design, it will integrate seamlessly with your appliances as well as your cabinetry.

Convection warming drawer may be installed with your own custom front panel or with one of our coordinating front panels (shown above).

## CONVECTION WARMING DRAWERS

### EASY ACCESS

The open sides make it easier and more convenient to load and remove plates and food from the spacious 2.0 cubic foot drawer cavity.

### CERAMIC SURFACE

The exclusive 600-watt glass-ceramic heating surface features numerous conducting paths to ensure quick and even heating and is so easy to clean, you can place food directly on the surface.

### CONVECTION WARMING

The 400-watt convection heater allows you to evenly, quickly and effortlessly heat large stacks of plates and can even be used to dehydrate food, such as fruit.

### TELESCOPIC RAILS

These rails feature a telescoping ball-bearing design for smooth opening and closing that supports up to 55 lbs.

### EASY CUSTOM PANEL INSTALLATION

Because the drawer and the door are separate units, it's easy to match the door to existing cabinetry, while the fully flush-mounted design lets you achieve a seamless appearance. Together, these features offer the ultimate in design flexibility.

### TOUCH CONTROL

This convenient feature boasts a digital display to easily activate and monitor any one of the 4 temperature settings. It also includes an electronic timer, a hot-surface indicator, an automatic shut-off feature and Sabbath mode.

# TRADITIONAL WARMING DRAWERS

For the ultimate in elegance, practicality and convenience, complete your Thermador kitchen with a spacious, built-in warming drawer. Keep food warm until every dish is ready to be served, or preheat food to the perfect temperature for a truly gourmet experience. It's the ultimate indulgence for the culinary enthusiast.

# CONVECTION & TRADITIONAL MICROWAVES

Thermador's trademark engineering excellence brings practicality and elegance to your kitchen with our 10-power-level microwave ovens. Choose from traditional or convection models. The convection model combines a convection oven with a microwave oven to give you the best of both worlds. Use it in microwave mode for fast heating, or in convection mode as an extra oven. And to perfectly integrate the traditional model with your Masterpiece or Professional Series wall oven, we offer a handsome, matching lift door.

**TRADITIONAL**  
Stainless steel MBES microwave with trim kit. Trim kits available in 27" and 30" in black or stainless steel.
