PRESTIGE®

Nothing compares to the quality of our commercial grade 304 stainless steel construction featuring welded seamless corners.

Prestige Vent-A-Shelf

Welcome to the newest innovation in space-saving ventilation technology, the New Prestige Vent-A-Shelf! The Vent-A-Shelf boasts a universal utility high-shelf vent system that not only acts a powerful vent-hood but affords you the use of the shelf above to sit your microwave, Salamander Broiler, spices, cookwares, etc. The Vent-A-Shelf is for anyone who wants to have the power of a commercial style ventilation system but doesn't have the space to have a full range hood. The Vent-A-Shelf can be ducted to the outside or can be made ductless very easily with a duct free kit.
