- 1 EasyControl™ system makes ASKO simple and convenient.
- 2 Stainless steel inner and outer tanks never rust, stain or absorb odors.
- 3 Exclusive SmartSeal™ door gasket eliminates leaks without collecting smelly residue.
- 4 Sensor Level Control™ saves water by automatically adjusting water level for optimal cleaning.
- 5 Internal heater ensures optimal water temperatures.
- 6 Anti-jam, auto-reversing pump reduces clogs and service calls.
- 7 AquaBlock System reduces leaks.
- 8 Two heavy-duty SKF® bearings last up to twice as long.
- 9 Quattro™ suspension ensures years of smooth spinning.

W6461

W6461

EasyControl™ Washer

The most sophisticated, yet easiest-to-use, washers around. The W6461 is available in white, titanium, titanium-stainless or stainless steel with a titanium control panel. Its EasyControl system has an LED window that displays temperatures and times, with program names printed right on the control panel.

W6222

W6222

EasyControl™ / Smooth Dial Washer

The W6222 washer uses a new electronic control with smooth dial technology. Indicator lights around the controls identify cycle and options selected. The wash cycles are printed on the control panel and remaining time is displayed in the LED window. This model is available in white or titanium.

Every ASKO washer is EnergyStar rated.

- 1 The ASKO dryer completes the fabric care started by the washer.
- 2 Stainless steel drum never rusts, chips or stains. Eliminates snags.
- 3 Butterfly Drying™ System reduces wrinkles and motor wear.
- 4 Heat and humidity sensors prevent overdrying, reduce wrinkles and save energy.
- 5 Three heavy-duty ball bearings provide years of smooth, quiet tumbling.
- 6 Reversible door can open from left or right.
- 7 Large, double lint filter traps more lint.
- 8 Dryers with optional internal moisture condenser make it possible to install the pair almost anywhere it's convenient.

T731 / T741

T731 / T741

EasyControl™ Dryers

The T731 is available in white with a white control panel or in titanium, titanium stainless or stainless steel with a titanium control panel to match the W6461 washer. It has an LED window that displays temperatures and times, with program names printed right on the control panel. The T741 is available in white only and includes an internal moisture condenser.

T712 / T712C

T712 / T712C

EasyControl™ / Smooth Dial Dryers

The T712 and T712C dryers use a new electronic control with smooth dial technology. Indicator lights around the controls identify cycle and options selected. The sensor controlled dry cycles are printed on the control panel and remaining time is displayed in the LED window. These models pair with the W6222 washer. The T712C has an internal moisture condenser and requires no external venting. This model is available in white or titanium.
