Energy use(kWh/year) range of all similar models

**Uses Least
Energy**
691

The estimated annual energy consumption
of this model was not available at the time
the range was published.

**Uses Most
Energy**
765

kWh/year (kilowatt-hours per year) is a measure of energy (electricity) use. Your utility company uses it to compute your bill. Only models with 28.5 cubic feet and over and the above features are used in this scale

**Refrigerator using more energy cost more to operate.
This model's estimated yearly operating cost is:**

\$53

Based on a 2001 U.S. Government national average cost of 8.29¢ per kWh for electricity. Your actual operating cost will vary depending on your local utility rates and your use of the product.

Important: Removal of this label before consumer purchase is a violation of Federal law (16 CFR Part 305).
