- Induction Technology - Induction elements use electricity to produce a magnetic field that reacts with the iron in metal cookware - including cast iron and magnetic stainless steel pans - and transfers the heat to the cookware

- Sophisticated Styling - Stainless metallic models have a reflective metallic finish that captures light and colors inside the kitchen

- 3,700-Watt, 11" Element - The most powerful induction element in the industry, provides instantaneous heat across 19 different cooking settings

- Digital Controls - Embedded in the cooktop offer added style and convenience

- Digital Pan-Sensing Technology - Detects the presence of cookware with magnetic properties, a requirement for induction cooking

- Pan Size Sensor - Automatically adjusts the heating element to the size of the pan

- Flexible Installation - Above a Monogram single wall oven is made possible by shallow-depth configuration with integrated cooling system

- Timer, Control-Lock Capability and Hot-Surface Indicator - provide an extra measure of convenience and safety

- Low-Warm Setting - Provides just enough heat to maintain an ideal serving temperature
