Freestanding Ranges

Signature Features

Quick Preheat Preheat in less than six minutes.¹

Effortless™ Temp Probe with Auto Keep Warm The Effortless™ Temperature Probe

The Effortless™ Temperature Probe allows you to set the desired finished temperature and alerts you when that temperature has been reached. At that point, the oven holds the desired temperature of the meat by moving to a Keep Warm function for better cooking results.

True Convection Multi-rack baking is faster and more even with True Convection.

Quick Boil Boils water faster.

30" Gas

Product Dimensions

Height (Max.)	47-1/2"
Width	29-7/8″
Depth (Including Handle)	28-1/2"

More Easy-To-Use Features

Express-Select[®] Controls Easily go from warm to boil.

Pizza Button

Easily bake perfect pizza with the touch of a button.

SpaceWise® Half Rack

Flexible rack system that adjusts to cook multiple dishes at once. Remove the half rack and you'll have extra height for tall dishes.

One-Touch Keep Warm Setting

Just one touch of a button keeps food warm until everything — and everyone — is ready.

Effortless™ Oven Rack

Bottom rack extends when you open the door for easy access.

Real Stainless Steel²

Real stainless steel with a protective coating that reduces fingerprints and smudges so it's easy to clean.

Effortless[™] Convection

Takes the guesswork out of convection cooking — our oven does the converting for you.

Sabbath Mode (Star-K* Certified)

Available in:

Stainless White (F) (W)

e Black (B)

Burners	BTU
Right Front	17,000
Right Rear	5,000
Left Front	9,500
Left Rear	15,000
Center Extra Zone	10,000

¹Based on single rack cooking performance, not set temperature, using Quick Preheat.
²Select model only.

Freestanding Range Specifications

FRIGIDAIRE

GALLERY.

- Product Shipping Weight (approx.) 220 Lbs.
- Voltage Rating 120V/60 Hz/15 Amps
- Connected Load (kW Rating) @ 120 Volts = 1.8kW
- (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120 Volts = 15
- Always consult local and national electric and gas codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90° F above room temperature without shrinking, warping or discoloring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- Do not obstruct flow of combustion air at oven vent nor around base or beneath lower front panel of range. Range requires fresh air for proper burner combustion.
- Do not install range beneath any downward-blowing, overhead vent hood or air curtain.
- Range ships with 3/4" factory regulator.
- Range is LP Gas convertible. (Optional LP Gas conversion kit available.)

- Floor beneath range MUST be solid and level.
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.

36'

(Adjustable)

- Range can be installed flush to wall with O" minimum rear clearance.
- Minimum clearance required (from edge of rangetop to nearest combustible wall on either side of range above 36" height) is based on largest burner output rating on cooking surface.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- Follow all dimension requirements provided to prevent property damage, potential fire hazard, and incorrect countertop and cabinet cuts.

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.
