BOSCH
Invented for life

BOSCH
Invented for life

The next step in dishwashers.

Integra® | Evolution® | Ascenta®

Bosch focuses on what matters most—quality and environmental responsibility.

What you do in the spotlight isn't the measure of your stature — it's what you do when no one is watching that truly counts. That's why Bosch engineers have challenged themselves to reduce the environmental impact of our products — without compromising performance. This commitment is reflected in superior quality appliances with sleek, smart design and efficient, practical innovations that use less energy. And less water. Not because the world demanded it. But because we believe it should.

After all, it's more than our job. It's our responsibility.

At Bosch, we are committed to offering the quietest, most efficient dishwashers in the U.S., all with the highest safety and quality standards on the market. We do this not only throughout our line, but in each price class. Plus, this year we are introducing new racks that provide increased flexibility and capacity. Taller walls, thicker wires and a more robust appearance, make the new racks a perfect complement to our exceptional dishwashers. We have also added a new silverware basket and ergonomic handles.

A wide range of features

Quietness
Bosch is the brand leader in quietness. In fact at just 40 dBAs we have the quietest dishwasher in the U.S.* Of course, you may not have heard that. Or anything at all. Buried behind three layers of sound-muffling coated metal and cotton-fiber insulation, our suspended, two-pump motor system dramatically reduces vibration and noise.

Efficiency
Our dishwashers are most efficient in every class** and exceed the 2011 ENERGY STAR® guidelines. They also save you up to 2.5 gallons of water on average per cycle – Bosch dishwashers take energy and water efficiency to a new level.

Safety
With 3 comprehensive safety systems Bosch dishwashers are precisely engineered to help eliminate the risk of costly water damage. Plus, to keep your family safe, Bosch dishwashers offer a Sanitize Option which removes 99.9% of bacteria and achieves NSF certification.

Quality
All our dishwashers undergo 485 quality checks and are fully tested with water before they leave our factory. J.D. Power and Associates ranked Bosch "Highest in Customer Satisfaction with Dishwashers, Three Years in a Row." ***

* Based on available sound information on competitors' Websites, August, 2009. ** According to *www.energystar.gov*.
*** Bosch received the highest numerical score for dishwashers in the proprietary J.D. Power and Associates 2006–2007 Major Home Appliance Studies℠ and 2008 Kitchen Appliances Study℠. 2008 study based on 14,782 total responses measuring 16 brands and measures opinions of consumers during the previous 36 months. Proprietary study results are based on experiences and perceptions of consumers surveyed in June–July 2008. Your experiences may vary. *Visit jdpower.com.*
RackMatic® and RackMatic® Plus
The RackMatic and RackMatic Plus upper-basket-height adjustment allows for easy and comfortable adjustment of the baskets when loaded. It's two or three simple steps to enhanced loading flexibility with regards to plate sizes and height of glasses.

Cup Shelves
Redesigned with a unique shape for dual-purposes – to securely hold larger kitchen items and varying sized stemware with different stem thickness, while still giving the best performance possible.

Increased Capacity
Repositioned for maximum loading capacity of up to 15 place settings. The distance between tines were made with varying positions so you can intuitively load larger and smaller items. The racks also boast more loading capacity for glassware and more designed with angles, so water can easily run off and dry without spots.

Flexible Silverware Basket
The flexible silverware basket splits into two parts and can be placed anywhere in the dishwasher, adding flexible space for other items.

Plastic Item Clips
Hold smaller items, such as plastic lids or baby bottle nipples, so they stay in place and are perfectly cleaned.

Extra Tall Item Sprinkler™
Hand washing large items becomes a thing of the past. Simply remove the top rack and place items, that are up to 22" tall, in the bottom rack.

Note: Features vary by model

Shown: 800 Series Racks

Rack Specifications

Series/Packages	Upper Rack	Lower Rack
VarioFlex™ Plus	– 5 Folding Tines – Removable Rack – RackMatic™ Plus (automatic height adjustable) – 2 Cup Shelves – 3 Plastic Item Clips – ActiveTab™ System with Stainless Steel Inlay – Third Loading Level	– Flexible Silverware Basket – 2 Long Folding Tines – 2 Cup Shelves – Wire Handle – Rack Handle with Stainless Steel Inlay – Extra Tall Item Sprinkler™
VarioFlex™	– 2 Folding Tines – Removable Rack – RackMatic Plus (automatic height adjustable) – 2 Cup Shelves – 3 Plastic Item Clips – ActiveTab System – Third Loading Level	– Flexible Silverware Basket – 2 Long Folding Tines – Wire Handle – Rack Handle – Extra Tall Item Sprinkler
800 Series	– 4 Folding Tines – Removable Rack – RackMatic (automatic height adjustable) – 3 Cup Shelves – 6 Plastic Item Clips – Easy-grip Handle – Accessory Basket	– 2 Piece Flexible Silverware Basket – 4 Folding Tines – Easy-grip Handle – Wire Handle – Vase/Baby Bottle Holder – Extra Tall Item Sprinkler
500 Series	– 2 Long Folding Tines – Removable Rack – RackMatic (automatic height adjustable) – 2 Cup Shelves – 3 Plastic Item Clips – Easy-grip Handle – Accessory Basket	– 2 Piece Flexible Silverware Basket – 2 Long Folding Tines – Wire Handle – Extra Tall Item Sprinkler
300 Series	– 1 Long Folding Tine – Removable Rack – Height Adjustable – 2 Cup Shelves – 2 Plastic Item Clips – Easy-grip Handle	– 2 Piece Flexible Silverware Basket – 1 Long Folding Tine – Wire Handle – Extra Tall Item Sprinkler*
Standard	– 1 Long Folding Tine – Removable Rack – 1 Cup Shelf	– Standard Silverware Basket – 2 Plastic Item Clips
