## LED High-Definition TV with 1080p Resolution

### FEATURES

#### Full HD 3D TV

Active 3D viewing is the only way to experience Full 1080p HD 3D content. With the latest 3D imaging technology, you will be completely immersed in a new world of TV viewing reality. Less ghosting produces images that are razor-sharp and fluid, no matter how fast they're moving. Watch any content in 3D with our built-in 3D converter.

#### 3D HyperReal™ Engine

The driving force behind the amazing colour and realistic images of Samsung's new LED TVs is the innovative 3D HyperReal™ Engine. By optimizing performance and image enhancement, the Samsung 3D HyperReal™ Engine provides the most vibrant and crystal-clear Full HD images in 2D and 3D.

#### Ultra Clear Panel

The Ultra Clear Panel on Samsung LED TV's efficiently absorbs external light and effectively eliminates reflection, providing you with real, natural colour and deep, dynamic detail that deliver a clearer, more comfortable viewing experience.

#### Built-In Wi-Fi

Reduce the cable clutter. Samsung now allows you to wirelessly connect your TV to your home network and experience content from all your connected devices right on your TV.

#### Smart TV

At Samsung, our job is to deliver the ultimate "SMART" experience to our customers. With our new line-up of SMART TV's we're now taking it to a whole new level. Our SMART TV's deliver a completely different TV viewing experience, seamlessly integrating a broad array of Internet content, broadcast programming, personal content, and virtually unlimited applications—all viewable on one TV screen. Through our user-friendly user interface, Smart Hub, look for your favourite video and content with Your Video or browse for TV-related content with Search All. We've also optimized web capabilities through our Web Browser feature. Moreover, our world's first TV App store contains hundreds of Apps that can be used to make your home entertainment experience more satisfying.

#### Smart Hub

**Smart Hub** is a portal to all your Smart TV's features. Start with an array of convenient Apps and services that are continually being added.

**Search All** of those Apps and services for the content you want while watching live TV. **Your Video** examines your viewing habits and begins to recommend similar content you might enjoy.

(Content available via 'Smart Hub' may vary among product categories, models, and territories. See Samsung.com for more details.)

#### Samsung Apps

Unleash the true potential of your Samsung Smart TV by accessing the world's first TV App store with the widest variety of Samsung Apps for TV available today. They provide you with a quick and easy way to access your favourite content through your Samsung Smart TV. So download the TV Apps that make your Smart TV even smarter by letting you watch your favourite movies, turning your TV into a digital photo album or a casino blackjack table, or even staying in touch with loved ones through live video chatting.

#### Search All

Enjoy the ease of searching for information or content through the convenient Search All feature on Smart Hub. You can perform your search in one of two ways. The first method is through the Smart Hub user interface. The Smart Hub UI provides you with the easy-to-use tools to find exactly what you're looking for, the other way is to search while watching TV.

#### Your Video

Gain access to your movie guide with Samsung's Your Video feature. Your Video allows you to watch and preview movie clips and TV programs from your TV through a customized recommendation service for video and content. What's more, you'll even receive key information like a brief synopsis and user ratings to help you make an informed choice. (Please note: Feature availability varies based on country.)

#### Skype™ HD Video

Skype™ is a free internet video calling service that allows users to communicate with each other. Historically each user would need a PC and specific software as well as a web cam, now just create an account and communicate with friends and family worldwide directly through your TV. A Samsung Skype camera is required and sold separately.

### AUDIO

#### Dolby Pulse

Technology delivers high-quality multichannel content and is the ideal solution for bandwidth-critical services like next-generation HDTV, cable, and satellite providers. Broadcasters can now transmit stereo and 5.1-channel audio, occupying the lowest bandwidth while maintaining high audio quality.

#### SRS TheaterSound®

An all-in-one audio suite that automatically detects and consistently levels abrupt volume fluctuations that normally occur when TV programming switches to commercial break or while changing channels. It also delivers up to 5.1 surround sound from multichannel content using built-in TV speakers while enhancing sound depth and dimension.

#### Direct Down-firing Speakers

Provides better design and deeper sound creation filling your room with deeper and clearer sound levels.

### WARRANTY

1 Year Parts and Labour Warranty.  
90 days parts and labour for commercial use, with in-home service, backed by Samsung toll-free support. 1-800-SAMSUNG
