- Multi-Air Flow Cooling
- Electronic Temperature Controls
- Tall Ice & Water Dispenser
- Premium Water Filtration System
- SmartDiagnosis™
- Door Alarm
- LoDecibel™ Quiet Operation

smartThinQ

Smart ThinQ™ Technology

Beautiful on the outside...and it lets you know what's going on inside. Our refrigerator with **Smart ThinQ™** technology* is the last word in food management. A quick check of the LCD screen tells you what's inside, food that's about to expire, even the ingredients you've got to buy to create a terrific main course dish. And all of this info and more can be accessed on your smartphone app.

Super Capacity

Super capacity, 31 cu.ft. with double freezer drawers allows you to store more food than ever before. Keeping it fresher, longer.

Slim SpacePlus™ Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. **The Slim SpacePlus™ Ice System** provides maximum shelf space and allows even more space for door bins.

* Internet connection required & sold separately.

Smart Grid monitoring technology not currently available. May not be compatible with all systems if and when introduced by power companies.

SmartDiagnosis™ is designed to supplement existing methods of problem identification and may not be able to troubleshoot all issues.
