

STACKED WASHER/DRYERS

ATEE9A / ATGE9A

COMMERCIAL-GRADE ELECTRONIC CONTROLS

Laundry is all we do, and we do it better than anyone else in the world. For decades, we've been designing, building and testing electronic controls the same way we do our machines: for unmatched, longer-lasting performance. Tested to endure through virtually every event that typically causes malfunction, Speed Queen electronic controls are durably designed to last in the harshest commercial environments — and last even longer in your home. We're so confident in our controls that we back our electronic models with an industry-best 5-year warranty on all parts and in-home labor.

DOUBLE PERFORMANCE IN HALF THE SPACE

Speed Queen® stacked washer/dryers deliver the same commercial-grade performance as our industry-leading single units in only half the square footage. The same durable construction. The same superior wash results. The same groundbreaking technologies. Everything you've come to expect from the world leader in laundry equipment is available in one convenient package. And it's backed by the same industry-leading warranty.

DYNAMIC BALANCING

- » Manages and re-distributes unbalanced loads for uninterrupted cycles
- » Minimizes vibration to near imperceptible levels
- » Virtually silent operation

CLEANER CLOTHES

- » Exclusive baffle design cascades water throughout the entire load
- » Perfected tumble rhythms provide maximum water-to-laundry contact

THE ULTIMATE DRY

- » Ideally balances temperature, airflow and mechanical action
- » Automatically stops the cycle once preset dryness level is reached

BUILT BETTER TO LAST LONGER

- » Built for commercial applications
- » Constructed with premium, metal components
- » Tested to deliver 25 years of commercial-grade performance

INDUSTRY'S BEST WARRANTY

- » Industry-leading 5-year warranty
- » Covers all parts and in-home labor

ABOUT SPEED QUEEN®

Speed Queen laundry equipment is designed, built and tested to deliver 25 years of commercial-grade performance. We use metal components where others use plastic. We rigorously test our products beyond their limit to ensure consistent, reliable performance and superior wash results. And because we make no distinction between the machines we engineer for use in commercial applications and the machines we offer for the home, you can be sure that your Speed Queen equipment is built better to last longer.

For the most accurate information, the installation guide should be used for all design and construction purposes. Due to continuous product improvements, design and specifications are subject to change without notice. The quality management system of Alliance Laundry Systems' Ripon facility has been registered to ISO 9001:2008. Printed in the USA.
