Why Napoleon®?

Environmentally friendly... Go Green with Napoleon® – no emissions, no pollution, 100% energy efficient. Napoleon® electric fireplaces are an environmentally friendly way to enjoy the ambiance of a fire by simply plugging it in to a standard 120V electric outlet and enjoying.

Making your life easier... Napoleon® electric fireplaces are designed to provide you absolute comfort and control at the touch of your fingertips. It's that easy. When you install a Napoleon® electric fireplace, you can rest assured that you will enjoy a lifetime of instant ambiance.

An investment you can count on... Your new Napoleon® electric fireplace adds value to your home while at the same time giving you uncompromising comfort and a reliable heating source. Aside from kitchen and bathroom renovations, fireplaces add the highest return on your home investment.

Create your personal design statement... Surround yourself with a home environment that makes you feel good, relaxed and proud to reflect your decorating style. Designer options are available to create the exact statement you have been looking for.

Authorized dealer support network... With over 3,000 reputable authorized dealers across North America, Napoleon® works hard to provide professional, consistent training and technical education to support our dedicated team of professionals.

Outstanding reliable warranty... Each and every Napoleon® electric fireplace is designed and manufactured to strict quality testing standards and backed by our one year warranty, guaranteed to give you the solid performance you deserve. Napoleon® is registered under the world recognized ISO 9001-2008 quality systems.

EF30 & EF30G

Recessed Clean Face Fireplace

A clean face, modern electric fireplace that looks great in both a mantel or drywall installation! The superior flame image and natural looking log set (EF30) or modern glass ember bed (EF30G) truly reflect the appearance of a real burning fire. Tinted reflective panels give the illusion of a deeper, larger firebox. The three stage heater and WHISPER QUIET™ fan can be thermostatically controlled, providing a warm and comfortable environment. Perfect for any room in your home!

EFL32H & EFC32H

Clean Face Linear & Convex Fireplaces

Offering a clean face linear or convex design and the convenience of simply hanging, plugging in and enjoying. The EFL32H & EFC32H are perfect for those wanting a clean face fireplace that takes up minimal space on the wall. The EFL32H & EFC32H can be recessed into a 2" x 4" wall for reduced protrusion into the room or surface mounted on the wall with a built-in bracket. A beautiful way to add ambiance and comfort to any room in the home.

EF39HD & EF39S

Mounted or Recessed Electric Fireplace

A display of modern artwork and an elegant fireplace all in one. The EF39 electric fireplace simply hangs on your wall like any artwork and plugs into a standard 120V electrical outlet. Instantaneously, your room is easily transformed into a relaxing and intriguing retreat. Perfect for any room in a house, apartment, condo, office or spa. The EF39 is available without a heater (EF39S) for either wall mount or recessed installation – ideal for beneath sensitive electronic equipment. The EF39 offers you the most versatility, limited only by your imagination.

EFL48H

Linear Wall Mount Fireplace

Napoleon's EFL48H electric slimline fireplace offers a linear contemporary design and the convenience of simply hanging, plugging in and enjoying. The EFL48H features a contemporary glass ember bed, an electronic touch screen control panel and LED technology, which offers a cool to the touch surface. The EFL48H can be recessed into a 2" x 4" wall for reduced protrusion into the room or surface mounted with the built-in bracket. With unmatched flame technology and a realistic flame pattern, the EFL48H is perfect for any room in your home.

EFL60H & EFL72H

A New Source of Warmth

60" & 72" electric fireplaces you can simply hang, plug in and enjoy. The generous glass front with wide black glass frame creates a stunning contrast around the realistic flame pattern generated using LED technology. A contemporary glass ember bed complements the minimalist design. The EFL60H & EFL72H can be recessed into a 2" x 4" wall for reduced protrusion into the room or wall mounted with the built-in bracket and features an electronic touch screen control panel providing convenient access on the front of the units.

Outstanding Features

of Napoleon's Advanced Technology

Reliable LED Technology

Napoleon's electric slimline series offer reliable LED technology for added convenience. LED lights are extremely efficient and long-lasting saving you the hassle of having to change out light bulbs.

Hidden Touch Screen Controls

Touch screen controls allow you to adjust the fan, heat level, flame height and brightness. At the touch of your finger you can set the thermostat to a desired temperature, plus use the timer to control hours of operation.

A Space-Saving Convenience

Offering a wide variety of lengths ranging from 32" to 100", Napoleon® has an electric fireplace for any room in your home or office.

Heat from top

Napoleon's Electric Slimline fireplaces have been designed to heat from the top, allowing you the option of a recessed or wall mounted installation, without intruding on the look of the linear glass front.

Reduced Protrusion

All Napoleon® electric fireplaces can be recessed into a 2" x 4" wall for reduced protrusion into the room. All units can also be surface mounted.
