

RFBW61G

67.25" x 23.63" x 25" (H x W x D)

Fully assembled warming cabinet & glass door beverage center stacked combination

Highlights:

Innovative energy-saving design lets the lower refrigerator power the upper warming cabinet

Perfectly sized with a 24" footprint and flush back design

Digital controls for both units ensure easy temperature management

Factory installed locks in each section offer security you can count on

Product Features:

Stainless steel interior (both units)	Offers lasting durability and improved sanitary conditions
Energy efficient design	Warming cabinet is partially powered by the lower refrigerator, offering huge energy savings for your facility by having a single plug appliance serve two functions
Fully assembled	Unit ships completely assembled for easy installation
Slim 24" footprint	Ideally sized for use in space-challenged facilities
Stainless steel trimmed double pane tempered glass door (both units)	Heat-safe doors offer a full view of both interiors
Adjustable cantilevered shelves (both units)	Cantilevered chrome shelving offers a variety of configurations to accommodate different sized items
Foamed-in-place cabinet	Ensures the interior is efficiently insulated
Factory installed locks	Both units include a front keyed lock for added security
Digital thermostats	Electronic controls for both sections to ensure easy temperature management. Warming cabinet features an external LED temperature readout
