Warning! Important Safety Instructions

Please read the Safety Instructions before using your TV.

CAUTION
RISK OF ELECTRIC SHOCK. DO NOT OPEN.
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER ALL SERVICING TO QUALIFIED PERSONNEL.

	This symbol indicates that high voltage is present inside. It is dangerous to make any kind of contact with any internal part of this product.
	This symbol indicates that this product has included important literature concerning operation and maintenance.

- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus and to protect it from overheating, these slots and openings must never be blocked or covered.
 - ☒ Do not place this apparatus in a confined space, such as a bookcase or built-in cabinet, unless proper ventilation is provided.
 - ☒ Do not place this apparatus near or over a radiator or heat register, or where it is exposed to direct sunlight.
 - ☒ Do not place vessels (vases etc.) containing water on this apparatus, as this can result in a fire or electric shock.
- Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool etc.). If this apparatus accidentally gets wet, unplug it and contact an authorized dealer immediately.
- This apparatus uses batteries. In your community, there might be environmental regulations that require you to dispose of these batteries properly. Please contact your local authorities for disposal or recycling information.
- Do not overload wall outlets, extension cords or adaptors beyond their capacity, since this can result in fire or electric shock.
- Power-supply cords should be placed so that they are not likely to be walked on or pinched by items placed upon or against them. Pay particular attention to cords at the plug end, at wall outlets, and at the point where they exit from the appliance.
- To protect this apparatus from a lightning storm, or when left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges.
 - Before connecting the AC power cord to the DC adaptor outlet, make sure that the voltage designation of the DC adaptor corresponds to the local electrical supply.
 - Never insert anything metallic into the open parts of this apparatus. This may cause a danger of electric shock.
 - To avoid electric shock, never touch the inside of this apparatus. Only a qualified technician should open this apparatus.
 - Be sure to plug in the power cord until it is firmly seated. When unplugging the power cord from a wall outlet, always pull on the power cord's plug. Never unplug it by pulling on the power cord. Do not touch the power cord with wet hands.
 - If this apparatus does not operate normally - in particular, if there are any unusual sounds or smells coming from it - unplug it immediately and contact an authorized dealer or service center.
 - Be sure to pull the power plug out of the outlet if the TV is to remain unused or if you are to leave the house for an extended period of time (especially when children, elderly or disabled people will be left alone in the house).
 - ☒ Accumulated dust can cause an electric shock, an electric leakage, or a fire by causing the power cord to generate sparks and heat or by causing the insulation to deteriorate.
 - Be sure to contact an authorized service center for information if you intend to install your TV in a location with heavy dust, high or low temperatures, high humidity, chemical substances, or where it will operate 24 hours a day such as in an airport, a train station, etc. Failure to do so may lead to serious damage to your TV.
 - Use only a properly grounded plug and wall outlet.
 - ☒ An improper ground may cause electric shock or equipment damage. (Class I Equipment only.)

- To turn off this apparatus completely, disconnect it from the wall outlet. To ensure you can unplug this apparatus quickly if necessary, make sure that the wall outlet and power plug are readily accessible.
- Do not allow children to hang onto the product.
- Store the accessories (battery, etc.) in a location safely out of the reach of children.
- Do not install the product in an unstable location such as a shaky shelf or a slanted floor or in a location exposed to vibration.
- Do not drop or strike the product. If the product is damaged, disconnect the power cord and contact a service center.
- To clean this apparatus, unplug the power cord from the wall outlet and wipe the product with a soft, dry cloth. Do not use any chemicals such as wax, benzene, alcohol, thinners, insecticide, air fresheners, lubricants, or detergents. These chemicals can damage the appearance of the TV or erase the printing on the product.
- Do not expose this apparatus to dripping or splashing.

- Do not dispose of batteries in a fire.
- Do not short-circuit, disassemble, or overheat the batteries.
- There is danger of an explosion if you replace the batteries used in the remote with the wrong type of battery. Replace only with the same or equivalent type.
- **WARNING - TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES OR OTHER ITEMS WITH OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES.**
- This product contains chemicals known to the State of California to cause cancer and reproductive toxicity.
- Use care when touching the TV after it has been on for some time. Some parts can be warm to the touch.

Internet security

Samsung takes a number of steps to protect its Internet-compatible Smart TVs against unauthorized incursions and hacking. For example, certain sensitive communications between the TV and the Internet servers are encrypted. In addition, the TV's operating system has adopted controls to prevent the installation of unauthorized applications.

Although we take steps to protect your Smart TV and personal information, no Internet-connected device or transmission is completely secure. We therefore encourage you to take additional steps to safeguard your TV, secure your Internet connection, and minimize the risk of unauthorized access. These steps are listed below:

- When Samsung releases software updates to improve the security of your TV, you should promptly install these updates. To automatically receive these updates, turn on **Auto Update** in the TV's menu (**Support > Software Update > Auto Update**). When an update is available, a popup message appears on the TV screen. Accept the software download and update by selecting YES when prompted. Take steps to secure your wireless router and network. Your router's manual should provide additional details about how to implement the following measures:
 - Secure your wireless router's management settings with a unique password to prevent unauthorized changes to security related settings.
 - Implement standard encryption (e.g., WPA2 encryption) on your wireless router to secure your wireless network signal.
 - Secure access to your wireless network with a hard-to-guess password.
 - Confirm your router's firewall setting is enabled (if so equipped).
 - Make sure that all your internet-connected devices are behind your network's firewall.
 - If your router or modem has a standby mode button, use it to disconnect your home network from the Internet when it is not in use.
- Use strong passwords for all your Internet accounts (Netflix, Facebook, Skype, etc.). If your TV has a camera, recess the camera into the TV's bezel when it is not in use. Recessing the camera makes it inoperative.
- If any unexpected messages appear on your TV screen requesting permission to link a device or enable a remote session, do NOT accept.
- Do not visit suspicious web sites and do not install any suspicious programs. We recommend that users install only those authorized apps provided by Samsung through Samsung Smart Hub.

Figures and illustrations in this User Manual are provided for reference only and may differ from the actual product appearance. Product design and specifications may change without notice.

Features of Your New TV

3D

Enjoy 3D content on your TV with this new feature.

Smart Hub

Your TV features Smart Hub, a multi-purpose entertainment and family center. You can use Smart Hub to surf the web or download and run applications. In addition, you can view or play photo, video, and music files stored on external storage devices.

☞ Refer to the e-Manual for details.

e-Manual

Get help from a detailed, on-screen user's manual built into your TV.

Smart interaction

Access and control menu options and functions using motions. To use Smart Interaction, connect the TV camera (sold separately) to the TV.

☞ Refer to the e-Manual for details.

UHD Evolution Kit

You can upgrade your TV to the latest features and functions by replacing your older One Connect with a UHD Evolution Kit (Sold separately). Not supported on all models.

☞ For more information on how to install the UHD Kit, refer to the Kit user manual.

☞ If you try to use a One Connect that did not come with your Samsung Smart TV model, the One Connect will not work.

FCC and Warranty Information

1. Initial Setup

When you turn on your TV for the first time, it immediately starts the Initial Setup. During Initial Setup, your TV pairs with the Samsung Smart Control, connects to your home network, implements Smart Hub agreements, links to the source of your live TV signal, and sets up control of your cable or satellite box.

Information You Need

Have the following information on hand before you turn on your TV for the first time:

- Your wireless network's password. (Make sure your network is on.)
- Your Postal or Zip code.
- The name and location of your cable or satellite provider (if you use one).

Internet Access

The TV must be connected to the Internet to use the Smart Features. If you have a wireless network, confirm that your network router is working before you start the initial setup. If you have a wired network, connect the TV's LAN port to the network with an Ethernet cable before you begin (CAT 7 cable preferred).

Running Initial Setup

1. Point the Samsung Smart Control at the TV.
2. Press the  button on the Samsung Smart Control to turn on the TV, and then follow the directions on the screen.

Once your Samsung Smart Control has paired, you can use the Samsung Smart Control to move the pointer on the screen. Place a finger on the **POINTER** button, and then move the Samsung Smart Control. The pointer on the screen moves in the direction you moved the Samsung Smart Control. To select items, press the **POINTER** button. For more information about using the Samsung Smart Control, see "The Samsung Smart Control" on page 6.

To learn more about operating your TV and its Smart Features, launch the TV's built-in e-Manual after you have completed the Initial Setup. For information about the e-Manual, see "The e-Manual" on page 9.

Using the TV Controller

You can use the TV Controller on the back of the TV instead of the remote control to control most of the functions of your TV. While watching TV or cable TV, you can change the channel or adjust the volume by pressing the Control Stick. When using Smart Hub, the TV's menu, or selecting a source, move the Control Stick up, down, left, or right to move the cursor. Press the Control Stick to select or activate the item highlighted by the cursor.

2. The Samsung Smart Control

When you are in a dark place, the Samsung Smart Control lights up its buttons so that you can identify their printed names.

Pairing the TV to the Samsung Smart Control

When you turn on the TV for the first time, the Samsung Smart Control pairs to the TV automatically. If the Samsung Smart Control does not pair to the TV automatically, point it at the remote control sensor of the TV, and then press and hold the buttons labeled ① and ② in the diagram on the left simultaneously for 3 seconds or more.

Using the SOURCE button to switch between video sources

Press the **SOURCE** button to switch between external devices connected to the TV. For example, to switch to a game console connected to the second HDMI connector, press the **SOURCE** button. The **Source** list appears across the top of the screen. From the **Source** list, select **HDMI2**.

The connector names may differ with the product chosen.

Installing batteries into the Samsung Smart Control

To install the batteries, push the rear cover open in the direction of the arrow and insert the batteries as shown in the figure. Make sure that the positive and negative ends are facing in the correct direction.

- ☑ Alkaline batteries are recommended for longer battery life.

Using the On-Screen Remote

Press the **MENU/123** button on the Samsung Smart Control to display the On-Screen Remote on the TV's screen. Use the On-Screen Remote to enter numbers and control content playback. Select buttons on the top of the screen to use the features and functions of the TV, just like a real remote.

- ☑ The On-Screen Remote may vary depending on the features or functions you are using.
- ☑ Refer to the e-Manual for details.

Using the POINTER to operate the TV

Place a finger on the **POINTER** button of the Samsung Smart Control, and then move the Samsung Smart Control. The pointer on the screen moves in the direction you moved the Samsung Smart Control. Press the **POINTER** button to select or run a focused item.

3. TV Camera Connection

- ☑ The TV camera is sold separately.
- ☑ Make sure to connect only the TV camera to the **TV CAMERA** port.
- ☑ Remove the cover of the **TV CAMERA** port, and then connect the TV camera's USB cable to the port. You cannot cover the port with the port cover while the cable is connected to the port.

4. Smart Hub

Smart Hub is the control center of your TV and its most important feature. You can use Smart Hub to surf the web, download and play apps and games, and playback photo, video, and music files stored on Blue-ray players, USB devices, smart phones, personal tablets, computers, and the Internet.

To open Smart Hub, press the  button on the remote control. Smart Hub services are divided into two groups, **Recent** (recently used) and **Featured**, at the bottom of the screen. The currently active group, with individually displayed icons, is on the right. The currently inactive group is on the left. To access the services in the inactive group, select that group, and then press the Enter button.

To launch a service, select its icon and then press the Enter button. You can only select and launch services from the active group.

For more information about Smart Hub, see the e-Manual.

 You must have the TV connected to the Internet to access Smart Hub.

5. The e-Manual

The embedded e-Manual contains information about the key features of your TV.

 You can download and view a printable version of the e-Manual on the Samsung website.

Displaying the e-Manual:

- On the Samsung Smart Control, press the **MENU/123** button, and then select **e-Manual** on the On-Screen Remote.
- In the TV's menu, select **Support > e-Manual**.

Using the buttons available on the main screen of the e-Manual

 (**Search**): Select an item from the search results to load the corresponding page.

 (**Index**): Select a keyword to navigate to the relevant page.

 (**Recently Viewed Topics**): Select a topic from the list of recently viewed topics.

Accessing the associated menu screen from an e-Manual topic page

 (**Try Now**): Access the associated menu item and try out the feature directly.

 (**Link**): Access a topic referred to on an e-Manual topic page.

Accessing the associated e-Manual topic from a menu screen

Press the **MENU/123** button on the Samsung Smart Control, then select **e-Manual** on the On-Screen Remote to read the e-Manual topic about a current screen menu function.

 The e-Manual cannot be accessed from some menu screens.

Updating the e-Manual to the latest version

You can update the e-Manual in the same way you update apps.

6. Troubleshooting and Maintenance

Troubleshooting

If the TV seems to have a problem, first review this list of possible problems and solutions. Alternatively, review the Troubleshooting Section in the e-Manual. If none of the troubleshooting tips apply, visit www.samsung.com/support or call Samsung Customer Service at 1-800-SAMSUNG (1-800-726-7864).

- ☑ For detailed information on troubleshooting, watch the troubleshooting videos at www.samsung.com/spsn.
- ☑ This TFT LED panel is made up of sub pixels which require sophisticated technology to produce. There may be, however, a few bright or dark pixels on the screen. These pixels will have no impact on the performance of the product.
- ☑ To keep your TV in optimum condition, upgrade to the latest software. Use the Update Now or Auto Update functions on the TV's menu (**MENU > Support > Software Update > Update now or Auto Update**).

The TV won't turn on.

- Make sure that the AC power cord is securely plugged in to the TV and the wall outlet.
- Make sure that the wall outlet is working.
- Confirm that the batteries in the remote are good. If not, replace them.
- Try pressing the Power button on the TV to make sure that the problem is not with the remote control. If the TV turns on, refer to "Remote control does not work" below.
- If the TV is connected to an antenna, check the antenna connections.
- If the TV is connected to a cable/satellite box, make sure that the cable/satellite box is turned on.

There is no picture/video/sound or distorted picture/video/sound from an external device.

- Make sure the connection to the device is correct and that all cables are fully inserted. Remove and reconnect all cables connected to the TV and external devices.
- Set the video outputs of your external devices (cable/satellite box, DVD, Blu-ray etc) to match the TV's input connections. For example, if an external device's output is HDMI, connect it to an HDMI input on the TV.
- Make sure that your connected devices are powered on.
- Press the **SOURCE** button on your remote and confirm that the correct input source has been selected.
- Reboot the connected devices by unplugging each device's power cord and then plugging them in again.
- Perform a TV self diagnosis to determine if the problem is caused by the TV or the device. (**MENU > Support > Self Diagnosis > Sound Test or Picture Test**).
- Change the picture size (**MENU > Picture > Picture Size > Picture Size**).
- Make sure that the correct speaker output is selected (**MENU > Sound > Speaker Settings > Speaker Select**).

The remote control does not work.

- Replace the remote control batteries. Make sure that the batteries are installed with their poles (+/-) in the correct direction.
- Clean the sensor's transmission window on the remote.
- Try pointing the remote directly at the TV from 5~6 feet away.

The cable or satellite box remote control doesn't turn the TV on or off or adjust the volume.

- Program the cable or satellite box remote control to operate the TV. Refer to the cable or satellite box user manual for the SAMSUNG TV code.

The TV cannot connect to your network or apps (for Internet compatible models only).

- Make sure the TV has a network connection (**MENU > Network > Network Status**).
- Contact your Internet service provider.

The picture quality is low.

- Select high definition (HD) channels or programs.

The TV settings are lost after 5 minutes.

- Change to **Home Use** mode. (**MENU > Support > Use Mode > Home Use**).

"Weak or No Signal" displayed in TV mode/cannot find channel.

- Press the **SOURCE** button on your remote and confirm that the correct input source has been selected.
- If the TV is not connected to a cable or satellite box, run **Auto Program** to search for channels (**MENU > Broadcasting > Auto Program**).

The stand is wobbly or crooked.

- Make sure the indicator arrows on the stand and stand holder are properly aligned.

The remote control, gestures, and/or voice does not work.

- The TV ships with protective stickers covering some of the sensors. Make sure all of the stickers have been removed.

Getting remote support for your TV

Samsung Remote Support service offers you one-on-one support with a Samsung Technician who can remotely:

- Diagnose your TV
- Adjust the TV settings for you
- Perform a factory reset on your TV
- Install recommended firmware updates

How does remote support work?

You can easily have a Samsung Tech service your TV remotely:

1. Call the Samsung Contact Center and ask for remote support.
2. Open the menu on your TV and go to the **Support** section.
3. Select **Remote Management**, then read and agree to the service agreements. When the PIN screen appears, provide the PIN number to the agent.
4. The agent will then access your TV. That's it!

Network troubleshooting

Improving your wireless signal

Position your wireless router, modem router, or access point in a central location. Avoid putting it in a corner.

Single story

Unsuitable router position

Recommended router position

Multi story

Unsuitable router position

Recommended router position

Adding a wireless repeater

Use a wireless repeater to get an instant boost in your wireless signal strength. Place the repeater halfway between your wireless router and your TV.

Single story

Multi story

-  Wireless router
-  Wireless repeater

Reducing wireless interference

The most common wireless technology, 802.11g (wireless-G), operates at a frequency of 2.4 GHz. This frequency is widely used by many cordless phones, microwave ovens, baby monitors, garage doors, and other wireless devices. Reduce interference by avoiding wireless devices that use the 2.4 GHz frequency. Instead, use devices that communicate via the 5.0 GHz frequency.

Intermittent Wi-Fi

- Check the distance between the TV and the Modem/Router. The distance should not exceed 50ft (15.2 m).
- Verify that there are no obstacles between the TV and the Modem/Router. (The Wi-Fi strength can be decreased by appliances, cordless phones, stone walls/fireplaces, etc.)
- Check the cable that connects the Modem to the Router (if you use a separate Modem and Router) to see if it is in good condition. If it is not, replace the cable.
- Connect the TV to your Modem/Router using a CAT 7 cable and try to set up a wired network connection. (**MENU > Network > Network Settings**).
- Check **Network Status (MENU > Network > Network Status)** to see if the IP address is invalid, for example, 169.x.x.x. If it is, call your ISP to get a valid IP address, and then ask them to check the connection not only between your Modem and Router but also between the Modem / Router and the Internet.
- If you see a valid Mac address, call your ISP and ask them to reset your network circuit to re-register the Mac addresses of your new Modem/Router and the TV.

Netflix problems

- Change the DNS to 8.8.8.8. Select **MENU > Network > Network Status > IP Settings > DNS setting > Enter manually > DNS Server > enter 8.8.8.8 > OK**
- Verify that the ESN for Netflix is valid. (Go to **MENU > Support > Contact Samsung**)
Reset Netflix by selecting **MENU > Smart Hub > Reset Smart Hub**.

Smart Hub error messages

- Reset Smart Hub by selecting **MENU > Smart Hub > Reset Smart Hub**.
- Update the TV's software (**MENU > Support > Software Update**).

Eco Sensor and screen brightness

Eco Sensor adjusts the brightness of the TV automatically. This feature measures the light in your room and optimizes the brightness of the TV automatically to reduce power consumption. If you want to turn this off, go to **MENU > System > Eco Solution > Eco Sensor**.

- ☑ If the screen is too dark while you are watching TV in a dark environment, it may be due to the **Eco Sensor**.
- ☑ Do not block the sensor with any object. This can decrease picture brightness.

Still image warning

Avoid displaying still images (such as jpeg picture files), still image elements (such as TV channel logos, stock or news crawls at the screen bottom etc.), or programs in panorama or 4:3 image format on the screen. If you constantly display still pictures, it can cause image burn-in on the LED screen and affect image quality. To reduce the risk of this adverse effect, please follow the recommendations below:

- Avoid displaying the same TV channel for long periods.
- Always try to display any image in full screen. Use the picture format menu of the TV set for the best possible match.
- Reduce brightness and contrast to avoid the appearance of after-images.
- Use all TV features designed to reduce image retention and screen burn. Refer to the e-Manual for details.

Caring for the TV

- ☑ If a sticker was attached to the TV screen, some debris can remain after you remove the sticker. Please clean the debris off before watching TV.
- ☑ The exterior and screen of the TV can get scratched during cleaning. Be sure to wipe the exterior and screen carefully using a soft cloth to prevent scratches.

Do not spray water or any liquid directly onto the TV. Any liquid that goes into the product may cause a failure, fire, or electric shock.

Turn off the TV, then gently wipe away smudges and fingerprints on the screen with a micro-fiber cloth. Clean the body of the TV with a soft cloth dampened with a small amount of water. Do not use flammable liquids (benzene, thinners, etc.) or a cleaning agent. For stubborn smudges, spray a small amount of screen cleaner on the cloth, and then use the cloth to wipe away the smudges.

7. Specifications and Other Information

Specifications

Display Resolution	3840 x 2160	
Environmental Considerations

Notes

- Design and specifications are subject to change without prior notice.
- The actual appearance of the TV may differ from the images in this manual, depending on the model.
- This device is a Class B digital apparatus.
- For information about the power supply, and more information about power consumption, refer to the label attached to the product.
- Typical power consumption is measured according to Energy Star Program requirements for televisions.
- Your TV and its accessories may look different than the product images presented in this manual, depending on the model.
- All drawings are not necessarily to scale. Some dimensions are subject to change without prior notice. Refer to the dimensions before installing your TV. Not responsible for typographical or printed errors.

8. TV Installation

Mounting the TV on a wall

If you mount this TV on a wall, follow the instructions exactly as set out by the manufacturer. Unless it is correctly mounted, the TV may slide or fall and cause serious injury to a child or adult and serious damage to the TV.

Installing the wall mount kit

You can mount the TV on the wall using a wall mount kit (sold separately). For models providing wall mount adapters, install them as shown in the figure below before installing the wall mount kit.

☑ Refer to the installation manual included with the Samsung wall mount kit.

Before you install the screws for the wall mount, put the Styrofoam that came with the TV's packaging on the TV to protect it. Then, lay the TV down and attach the screws.

☑ The Styrofoam is not provided for the 40-inch or less TVs.

To mount both a soundbar and the TV onto a wall using the wall mount, mount the soundbar onto the TV first, and then mount the TV/Soundbar combination onto the wall mount. For detailed information, see the instructions provided with the soundbar.

☑ Soundbar installation with the wall mount may not be supported in specific regions or for specific models.

For detailed information about installing the wall mount, see the instructions provided with the wall mount kit. We recommend that you contact a technician for assistance when installing the wall mount bracket. We do not advise you to do it yourself. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you choose to install the wall mount on your own.

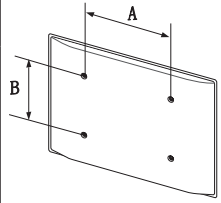

To order the wall mount kit, contact Samsung Customer Care at 1-800-SAMSUNG (1-800-726-7864).

VESA wall mount kit notes and specifications

You can install your wall mount on a solid wall perpendicular to the floor. Before attaching the wall mount to surfaces other than plaster board, contact your nearest dealer for additional information. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury.

Standard dimensions for wall mount kits are shown in the table below.

If you are installing a third-party wall mount, note that the length of the screws you can use to attach the TV to the wall mount is shown in column C in the table below.

Product Family	TV size in inches	VESA screw hole specs (A * B) in millimeters	C (mm)	Standard Screw	Quantity	
LED-TV [Curved]	48 - 65	400 X 400	32~40	M8	4	

Do not install your wall mount kit while your TV is turned on. This may result in personal injury from electric shock.

- Do not use screws that are longer than the standard dimension or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
- Do not fasten the screws too firmly. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Do not mount the TV at more than a 15 degree tilt.
- Always have two people mount the TV onto a wall.

Arranging the cables

When installing a stand

When installing a wall mount kit

Safety Precaution: Securing the TV to the wall to prevent falling

Caution: Pulling, pushing, or climbing on the TV may cause the TV to fall. In particular, ensure your children do not hang on or destabilize the TV. This action may cause the TV to tip over, causing serious injuries or death. Follow all safety precautions provided in the Safety Flyer included with your TV. For added stability and safety, you can purchase and install the anti-fall device as described below.

Preventing the TV from falling

These are general instructions. The brackets, screws, and string are not supplied by Samsung. They must be purchased separately. We suggest consulting an installation service or professional TV installer for specific hardware and anti-fall hardware installation.

1. Put the screws into one set of brackets, and then firmly fasten them to the wall. Confirm that the screws are firmly attached to the wall.
 - ✎ You may need additional material such as wall anchors depending on the type of wall.
2. Remove the screws from the back center of the TV, put the screws into a second set of brackets, and then fasten the screws to the TV again.
 - ✎ These screws may not be supplied with the TV. For a 48-65 inch model, purchase M8 screws.
3. Connect the brackets fixed to the TV and the brackets fixed to the wall with a durable, heavy-duty string, and then tie the string tightly.
 - ✎ Install the TV near the wall so that it does not fall backwards.
 - ✎ Connect the string so that the brackets fixed to the wall are at the same height as or lower than the brackets fixed to the TV.
 - ✎ Untie the string before moving the TV.
4. Make sure that all connections are properly secured. Periodically check the connections for any sign of fatigue or failure. If you have any doubt about the security of your connections, contact a professional installer.

Providing proper ventilation for your TV

When you install your TV, maintain a distance of at least 4 inches between the TV and other objects (walls, cabinet sides, etc.) to ensure proper ventilation. Failing to maintain proper ventilation may result in a fire or a problem with the product caused by an increase in its internal temperature.

When you install your TV with a stand or a wall mount, we strongly recommend you use parts provided by Samsung Electronics only. Using parts provided by another manufacturer may cause difficulties with the product or result in injury caused by the product falling.

FCC and Warranty Information

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IMPORTANT WARRANTY INFORMATION REGARDING TELEVISION FORMAT VIEWING

☑ See the warranty card for more information on warranty terms.

Wide screen format LED Displays (with 16:9 aspect ratios, the ratio of the screen width to height) are primarily designed to view wide screen format full-motion video. The images displayed on them should primarily be in the wide screen, 16:9 ratio format, or expanded to fill the screen, if your model offers this feature, with the images constantly in motion. Displaying stationary graphics and images on the screen, such as the dark sidebars on non-expanded standard format television video and programming, should be limited to no more than 5% of the total television viewing time per week.

Additionally, viewing other stationary images and text such as stock market crawls, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions.

Displaying stationary images that exceed the above guidelines can cause uneven aging of LED Displays that leave subtle, but permanent burned-in ghost images in the LED picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On LED models that offer picture sizing features, use these controls to view different formats as a full screen picture.

Be careful about the television formats you select and the length of time you view them. Uneven LED aging as a result of format selection and use, as well as burned in images, are not covered by your Samsung limited warranty.

- SAMSUNG ELECTRONICS NORTH AMERICAN LIMITED WARRANTY STATEMENT

Subject to the requirements, conditions, exclusions and limitations of the original Limited Warranty supplied with Samsung Electronics (SAMSUNG) products, and the requirements, conditions, exclusions and limitations contained herein, SAMSUNG will additionally provide Warranty Repair Service in the United States on SAMSUNG products purchased in Canada, and in Canada on SAMSUNG products purchased in the United States, for the warranty period originally specified, and to the Original Purchaser only.

The above described warranty repairs must be performed by a SAMSUNG Authorized Service Center. Along with this Statement, the Original Limited Warranty Statement and a dated Bill of Sale as Proof of Purchase must be presented to the Service Center. Transportation to and from the Service Center of TVs 37" or smaller is the responsibility of the purchaser. Conditions covered are limited only to manufacturing defects in material or workmanship, and only those encountered in normal use of the product.

Exclusions include, but are not limited to, any originally specified provisions for in-home or on-site services, minimum or maximum repair times, exchanges or replacements, accessories, options, upgrades, or consumables.

For the location of a SAMSUNG Authorized Service Center, please call toll-free:

☎ In the United States: 1-800-SAMSUNG (1-800-726-7864)

☎ In Canada: 1-800-SAMSUNG

LIMITED WARRANTY TO ORIGINAL PURCHASER

This SAMSUNG brand product, as supplied and distributed by SAMSUNG and delivered new, in the original carton to the original consumer purchaser, is warranted by SAMSUNG against manufacturing defects in materials and workmanship for period of: (90 Days Parts and Labor for Commercial Use)

Categories	Parts	Labor	Size	Service
LCD/LED TV	1 Year	1 Year	42" and Larger *Includes 40" UHD Model	Carry-In or In Home
			40" and Smaller	Carry-In
Plasma Display	1 Year	1 Year	All	Carry-In or In Home
3D Glasses	1 Year	1 Year	-	Carry-In or Pick up

This limited warranty begins on the original date of purchase, and is valid only on products purchased and used in the United States. To receive warranty service, the purchaser must contact SAMSUNG for problem determination and service procedures.

Warranty service can only be performed by a SAMSUNG authorized service center. The original dated bill of sale must be presented upon request as proof of purchase to SAMSUNG or SAMSUNG's authorized service center.

SAMSUNG will repair or replace this product, at our option and at no charge as stipulated herein, with new or reconditioned parts or products if found to be defective during the limited warranty period specified above. All replaced parts and products become the property of SAMSUNG and must be returned to SAMSUNG. Replacement parts and products assume the remaining original warranty, or ninety (90) days, whichever is longer.

Certain products are eligible for In-home service at Samsung's discretion. To receive in-home service, the product must be unobstructed and accessible to service personnel. If during in-home service, repair cannot not be completed, it may be necessary to remove, repair and return the product. If in-home service is unavailable, SAMSUNG may elect, at our option, to provide for transportation of our choice to and from a SAMSUNG authorized service center. Otherwise, and for 37" and smaller LCD/LED TV, transportation to and from the SAMSUNG authorized service center is the responsibility of the purchaser.

This limited warranty covers manufacturing defects in materials and workmanship encountered in normal, and except to the extent otherwise expressly provided for in this statement, noncommercial use of this product, and shall not apply to the following, including, but not limited to: damage which occurs in shipment; delivery and installation; applications and uses for which this product was not intended; altered product or serial numbers; cosmetic damage or exterior finishes; accidents, abuse, neglect, fire, water, lightning or other acts of nature; use of products, equipment, systems, utilities, services, parts, supplies, accessories, applications, installations, repairs, external wiring or connectors not supplied or authorized by SAMSUNG which damage this product or result in service problems; incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions, cleaning, maintenance and environmental instructions that are covered and prescribed in the instruction book; reception problems and distortion related to noise, echo, interference or other signal transmission and delivery problems; brightness related to normal aging, or burned-in images. SAMSUNG does not warrant uninterrupted or error-free operation of the product.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED AND DESCRIBED ABOVE, AND NO WARRANTIES WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY AFTER THE EXPRESS WARRANTY PERIODS STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BE BINDING ON SAMSUNG. SAMSUNG SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST SAMSUNG BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY SAMSUNG AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, PURCHASER ASSUMES ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND PURCHASER'S PROPERTY AND TO OTHERS AND THEIR PROPERTY ARISING OUT OF THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT SOLD BY SAMSUNG NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF SAMSUNG. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT, IS NONTRANSFERABLE AND STATES YOUR EXCLUSIVE REMEDY.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To obtain warranty service, please contact SAMSUNG at:

Samsung Electronics America, Inc.
85 Challenger Road
Ridgefield Park, NJ 07660-2112
1-800-SAMSUNG 726-7864 - www.samsung.com

The benefits of this Limited Warranty extend only to the original purchaser of Samsung products from an authorized Samsung reseller. THIS LIMITED WARRANTY SHALL NOT APPLY TO ANY SAMSUNG PRODUCTS PURCHASED FROM UNAUTHORIZED RESELLERS OR RETAILERS, EXCEPT IN STATES WHERE SUCH RESTRICTION MAY BE PROHIBITED. For a list of Samsung authorized retailers, please go to: http://www.samsung.com/us/peaceofmind/authorized_resellers.html.

3D Active Glasses

SSG-5150GB

The TV user guide's description of this product may be not accurate, so always refer to this guide.

User's Guide

Features

Samsung's SSG-5150GB 3D glasses enable you to view 3D images on your 3D TV. The Samsung 3D glasses communicate with Samsung 3D TVs via the 2.4GHz RF band.

The Samsung 3D glasses are only compatible with Samsung D, E, ES, F, FH, H, HU, J, JU and JS series 3D TV's that were released in 2011, 2012, 2013, 2014 and 2015. These 3D glasses cannot be connected to other Bluetooth devices.

Parts

Replacing the Batteries

If the red LED blinks every two seconds continually, replace the battery with a new one.

- Use a coin when changing batteries. Using other tools may damage the groove on the battery holder.
- Insert the "+" side of the battery into the side marked with "+" in the battery compartment.
- To check the remaining battery capacity, refer to the pairing section in this manual.

Pairing 3D Active Glasses

- What is Pairing?** Pairing is the process of connecting 3D glasses and a 3D TV so that the two devices can exchange data.
- Ensure your Samsung TV and 3D glasses are no farther than 19.5 in (50 cm) apart from each other while pairing is in progress.

Turning the glasses on

Press the power button briefly. The green LED turns on for 3 seconds. (Make sure that 3D is activated on the TV before using the 3D glasses.)

Turning the glasses off

Press the power button briefly. The red LED turns on for 3 seconds.

Performing the pairing process.

Turn the TV on and let it power up completely. Press and hold the Power button on the glasses. The green and the red LEDs blink alternately for 2 seconds.

- Once the 3D glasses are paired, the remaining battery capacity is displayed on the TV screen. (This feature only applies to Samsung F series 3D TVs and 3D glasses that have been available since 2013.)
- If you keep trying to pair the glasses and the TV after pairing has failed, the battery level will decrease significantly. However, the battery level will recover to a certain degree in about a minute.
- The working distance is affected by the presence of obstacles (a person, metal, walls, etc.) between the glasses and the TV and the strength of the Bluetooth signal.
- Turn off the 3D glasses when they are not in use. If you leave the 3D glasses on, the battery lifespan decreases.

Operating range

Recommended pairing distance

Recommended viewing distance

Recommended viewing distance	2-6m (6 to 19.5 ft)
Recommended pairing distance	50 cm or less (about 20 in)

Pairing steps

1. Turn on the TV, and then move the glasses within 19.5 inches of the TV.
2. Press the power button on the 3D glasses briefly. The 3D glasses will power on and pairing will start.
3. The message "3D glasses are connected to TV." will be displayed on the TV screen when the pairing is successfully completed.
 - If pairing fails, the 3D glasses will power off.
 - If the first attempt to pair fails, power the TV off and on again and perform step 2.
 - **How to pair again:** Press the power button on the 3D glasses for more than 1 second.

<Pairing is needed again in the following situations:>

- If the 3D glasses do not function, even when the power button is pressed, especially if the TV has just been a repaired.
- If you want to play 3D content on another Samsung 3D TV model that belongs to the D, E, ES, F, FH, H, HU, J, JU or JS series released in 2011 through 2015. You must pair the glasses with the other TV.

Viewing guidelines

- In 3D view mode, the screen may flicker under florescent lighting (50Hz ~ 60Hz) or three-wave lighting.
 - * In this case, it is advisable to turn off the lighting or adjust it to a low level.
- When switching the picture mode from 3D view, the 3D view mode turns off, and the 3D glasses fail to operate, resulting in the display not operating properly.
 - * Then, the 3D glasses turn off.
- If you lie on your side while watching TV with the 3D glasses, the picture may look darker or may not be visible.
- If the 3D glasses are defective or damaged, they cannot be repaired and should be exchanged for a new pair. The repair service is free of charge within the warranty period, which, however, does not cover damage from the user's fault.
- The actual 3D effect may be experienced differently depending on the viewer. The 3D effect may not be experienced by a person who has a great difference of vision in the left and right eyes.
- In 3D view mode, it is advisable to watch TV within the recommended distance.
 - * The 3D function of the glasses may not work properly if you are out of the recommended distance for about 3 seconds.
 - * If you stay out of the recommended range, the 3D glasses lose the wireless communications with the TV, and then the display turns off in few seconds before the glasses turn off.
- The 3D glasses may not work properly if there are any nearby active 3D devices or electronic or wireless communication devices (for example, a device that uses the 2.4GHz or 5GHz frequency range such as a microwave or AP). In this case, move the devices away from the 3D glasses.
- The 3D Glasses may not work properly near metal objects or in an electromagnetic field. In this case, move the metal objects or the electromagnetic device away from the 3D glasses.
- The vividness of the image may be deteriorated if you watch TV in a location that is exposed to direct sunlight or illumination.

CAUTION!

IMPORTANT HEALTH AND SAFETY INFORMATION FOR 3D IMAGES. READ THE FOLLOWING CAUTIONS BEFORE YOU OR YOUR CHILD USE THE 3D FUNCTION.

- Adults should frequently check on children who are using the 3D function. If there are any complaints of tired eyes, headaches, dizziness or nausea, stop the child from viewing the 3D TV and ensure that they rest.
- Do not use the 3D glasses for any purpose other than the intended purpose, such as general eyeglasses, sunglasses, protective goggles.
- Some viewers may experience discomfort such as dizziness, nausea and headaches while viewing 3D TV. If you experience any of these symptoms, stop watching the 3D content, remove the 3D glasses, and take a rest.
- An extended period of watching TV in 3D view mode may cause eye fatigue. In this case, stop watching the 3D content immediately, take off the 3D glasses and allow your eyes to rest.
- Do not use the 3D function or the 3D glasses while walking or moving around. Wearing the 3D glasses while moving around may result in injury due to running into objects, tripping and/or falling.
- If you sleep with the 3D glasses on, the temples on the glasses may become broken.
- The temples of the 3D glasses are unfolded. Do not attempt to fold the temples with excessive force. Folding the temples with excessive force may damage the 3D glasses.
- There is a danger of explosion if the battery is incorrectly replaced.
- Make sure to replace the battery with the same type.

SAFETY PRECAUTIONS

The following safety instructions are to ensure your personal safety and prevent property damage. Please read them to ensure the proper use of the product.

- Do not place the product in a location exposed to direct sunlight, heat, fire, or water. Exposure may result in a product malfunction or fire.
- Do not apply force to the lenses of the 3D glasses. Do not drop or bend the product. Applying force, dropping, or bending may result in a product malfunction.
- Keep components of the 3D glasses out of reach of children, and especially ensure children do not swallow one of the components. If your child swallowed a component, consult your doctor immediately.
- When cleaning the product, do not spray water or cleaner directly onto the surface of the product. Spraying water or cleaner directly onto the glasses may result in fire or electric shock, damage to the product's surface, or cause the indicator labels on the product's surface to come loose.
- Do not apply chemicals containing alcohol, solvent, or surfactant such as wax, benzene, thinner, pesticide, air freshener, lubricant, or cleaner to the product. These chemicals may cause the product's exterior to be discolored or cracked, or labels or instructions to be removed. Use only a soft cloth such as superfine fibers or cotton flannels for cleaning the product as the surface or the lenses easily cracks. Because the product can be easily scratched with foreign substances, make sure to dust off the cloth before using.
- Do not sleep while wearing the 3D glasses. Wearing the 3D glasses while sleeping may damage them.
- Do not disassemble, repair, or modify the 3D glasses by yourself. Do not use a product that is damaged.
- Take care that you do not injure your eyes with the edges of the frame of the 3D glasses when wearing them.
- Put the 3D glasses on and take them off with both hands.
- Use only approved batteries, and make sure to insert the batteries in the correct polarities. If the batteries are replaced in the wrong polarities, the batteries may explode or leak its internal chemicals, which may cause fire, inflict injury on users, or contaminate (damage) its environment.
- Keep the removed batteries out of children's reach to prevent children from swallowing them. If they swallow them, consult with a doctor immediately.
- Swallowing the cylindrical (button type) battery can cause serious damage to your internal organs. If this happens, contact a doctor immediately.

Troubleshooting

If you encounter...	Try this...
My 3D glasses do not work.	<ul style="list-style-type: none"> Replace the battery. The 3D glasses should be close to the TV. Make sure that the distance between the TV and your 3D glasses is less than 19.5 feet (6m) in a straight line. Check the 3D function settings of your TV.
The LED keeps blinking	<ul style="list-style-type: none"> The battery is dead. Replace the battery.

Specifications (Model Number: SSG-5150GB)

Optics	Shutters	Liquid crystal	Transmittance	36±2%
	Recommended viewing distance	6.5 to 19.5 ft (2 ~ 6m)	Field Rate	120 fields/s
Weight	Glasses	21g/0.74 oz. (including the battery: 22g±0.5g/0.77±0.18oz.)		
Power	Glasses	One 3V lithium/manganese dioxide battery 3V (CR1620)		
Power Consumption	Glasses	0.85mA (Average)		
	Battery	Type	70mAh, 3.0V (CR1620)	
Operating time when On		70hours		
Operating Conditions	Operating Temperature	50 °F ~ 104 °F (10°C ~ 40°C)		
	Custody Temperature	-4 °F ~ 113 °F (-20°C ~ 45°C)		

- Product specifications may be changed without notice in order to enhance product performance.
- The continuous operating time may differ depending on the wireless communication environment and usage conditions.

Regulatory Compliance Statements

◆ FCC COMPLIANCE

Federal Communication Commission Interference Statement

- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

◆ IC Statement

This Class B digital apparatus complies with Canadian ICES-003.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

CALIFORNIA USA ONLY

This perchlorate warning applies only to primary CR (Manganese Dioxide) Lithium coin cells in the product sold or distributed ONLY in California USA
 * Perchlorate Material - special handling may apply,
 See www.dtsc.ca.gov/hazardouswaste/perchlorate.

⚠ WARNING

DO NOT INGEST BATTERY, CHEMICAL BURN HAZARD

[The 3D Glasses Supplied with] This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

简体中文 One Connect 智能接口盒底部的开槽和洞孔是为了提供必要的通风。为防止 One Connect 智能接口盒过热并确保其可靠运行，切勿堵塞或遮盖这些开槽和洞孔。

繁體中文 One Connect 盒底部的槽縫和開口是為通風用。為避免 One Connect 盒過熱以及確保運轉穩定，切勿阻塞或蓋住這些槽縫和開口。

繁體中文 One Connect 盒底部的槽縫和開口是為通風用。為避免 One Connect 盒過熱以及確保運轉穩定，切勿阻塞或蓋住這些槽縫和開口。

العربية شكافها وروزنهها در زیر جعبه One Connect برای هواگیری لازم هستند. برای پیشگیری از زیاد گرم شدن جعبه One Connect و اطمینان از عملکرد قابل اطمینان، هرگز این شكافها و روزنهها را مسدود نكرده یا نبوشانید.

עברית החריצים והפתחים בתחתית ה-One Connect Box הכרחיים לצורך אוורור. כדי למנוע חום יתר של ה-One Connect Box וכדי להבטיח תפעול אמין, אין לחסום או לכסות את הפתחים או החריצים.

IMPORTANT SAFETY PRECAUTIONS

If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Placing the television on a platform, stand, cabinet, table or other surface which is:
 - recommended by Samsung or sold with the product;
 - secure and stable;
 - sufficiently wider in the base than the base measurement of the television;
 - strong and large enough to support the size and weight of the television.
- Positioning the television close to the wall to avoid the possibility of the television falling when pushed.
- Ensuring your television is installed by an authorized Samsung installer.
- Following the instructions for wall mounting in the installation manual and using the mounting equipment supplied by Samsung.
- Placing the television toward the back of the furniture or surface on which it is placed.
- Ensuring that the television does not hang over the edge of the furniture or surface on which it is placed.

- Not hanging anything from or on the television.
- Anchoring both the television and the furniture on which it is placed to a suitable support especially in the case of tall furniture, such as cupboards or bookcases which exceed one metre in height. This can be done by using sturdy brackets, safety straps or mounts that are made specifically for flat screen televisions.
- Not placing any material between the television and the furniture on which it is placed.
- If the furniture on which the television is placed has drawers, cabinets or shelves under the television, taking steps to prevent children from climbing, such as installing safety latches so the doors cannot be opened.
- Keeping pets away from the television.
- Educating children about the dangers of climbing on furniture to reach the television or its control.

Failure to take these safety precautions may cause the television to fall from the stand or mounting equipment, causing damage or serious injury.

BN68-04972E-01

Important Safety Instructions (UL Only)

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer.
12. Use only with cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

▲ WARNING

To prevent damage which may result in fire or electric shock hazard, do not expose this appliance to rain or moisture.

Ventilation

Do not place the apparatus in a rack or bookcase. Ensure that there is adequate ventilation and that you've followed that manufacturer's instructions for mounting and installation.

Wiring the Mains Power Supply Plug (UK Only)

IMPORTANT NOTICE

The mains lead on this equipment is supplied with a moulded plug incorporating a fuse. The value of the fuse is indicated on the pin face of the plug and, if it requires replacing, a fuse approved to BS11362 of the same rating must be used.

Never use the plug with the fuse cover omitted if the cover is detachable. If a replacement fuse cover is required, it must be of the same colour as the pin face of the plug. Replacement covers are available from your dealer.

If the fitted plug is not suitable for the power points in your house or the cable is not long enough to reach a power point, you should obtain a suitable safety approved extension lead or consult your dealer for assistance. However, if there is no alternative but to cut off the plug, remove the fuse and then safely dispose of the plug.

Do NOT connect the plug to a mains socket as there is a risk of shock hazard from the bared flexible cord.

IMPORTANT

The wires in the mains lead are coloured in accordance with the following code:

BLUE - NEUTRAL BROWN - LIVE

As these colours may not correspond to the coloured markings identifying the terminals in your plug, proceed as follows :

The wire coloured BLUE must be connected to the terminal marked with the letter N or coloured BLUE or BLACK. The wire coloured BROWN must be connected to the terminal marked with the letter L or coloured BROWN or RED.

▲ WARNING

DO NOT CONNECT EITHER WIRE TO THE EARTH TERMINAL, WHICH IS MARKED WITH THE LETTER E OR BY THE EARTH SYMBOL , OR COLOURED GREEN OR GREEN AND YELLOW.

Regulatory Compliance Statements

Your Samsung product compliance class is marked in the user manual.

USA

FCC Class A Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

☞ This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Class B Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

☞ This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Recycling Information (Take-back offer)

For recycling information for our products, please contact the company corresponding to your region of residence.

For those who reside in other countries, please contact a nearest local Samsung dealer for recycling information for the products to be treated in environmentally acceptable way. The information of Regional Takeback Schemes can be found at Samsung's web-site.

http://www.samsung.com/recycling_compliance

User Information

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. If necessary, consult with your dealer or an experienced radio/television technician for addition suggestions. You may find the booklet called How to Identify and Resolve Radio/TV Interference Problems helpful. This booklet was prepared by the Federal Communications Commission. It is available from the U.S. Government Printing Office, Washington, DC 20402, Stock Number 004-000-00345-4.

The party responsible for product compliance:

SAMSUNG ELECTRONICS CO., LTD.
America QA Lab of Samsung
3351 Michelson Drive
Suite #290, Irvine, CA92612 USA

▲ WARNING

User must use shielded signal interface cables to maintain FCC compliance for the product. Provided with this monitor is a detachable power supply cord with IEC320 style terminations. It may be suitable for connection to any UL Listed personal computer with similar configuration. Before making the connection, make sure the voltage rating of the computer convenience outlet is the same as the monitor and that the ampere rating of the computer convenience outlet is equal or exceeds the monitor voltage rating. For 120 Volt applications, use only UL Listed detachable power cord with NEMA configuration 5-15P type(parallel blades) plug cap. For 240 Volt applications use only UL Listed detachable power supply cord with NEMA configuration 6-15P type (tandem blades) plug cap. This television receiver provides display of television closed captioning in accordance with Section 15.119 of the FCC rules. (TV broadcast receivers with picture screens 13 inches or larger in diameter models only)

Energy Star

ENERGY STAR qualified model only (Applicable to tuner-included models only)

Your Samsung TV is ENERGY STAR qualified in its "factory default(Home Use)" setting. Change to certain features, settings and functionality in this TV can change the power consumption, possibly beyond the limits required for ENERGY STAR qualification.

Environmental Protection Agency and Department of Energy. ENERGY STAR is a joint program of the Government agencies, designed to promote energy efficient products and practices.

Refer to www.energystar.gov for more information of the ENERGY STAR Program.

ENERGY STAR qualified model only (The other models)

As an ENERGY STAR Partner, Samsung has determined that this product or product models meets the ENERGY STAR guideline for energy efficiency.

Applicable to smart control included models only

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

CANADA

ICES-003 Class A Notice - Avis NMB-003, Classe A

This Class A digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

ICES-003 Class B Notice - Avis NMB-003, Classe B

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

EU

European Notice (Europe Only)

Products with the CE marking comply with the EMC Directive(2004/108/EC) and the Low Voltage Directive(2006/95/EC) issued by the Commission of the European Community.

Compliance with these directives implies conformity to the following European Norms:

- EN55022: Radio Frequency Interference
- EN55024: Electromagnetic Immunity of Information Technology Equipment
- EN61000-3-2: Power Line Harmonics
- EN61000-3-3: Voltage Fluctuations
- EN55013: Radio disturbance characteristics of broadcast receivers and associated equipments
- EN55020: Electromagnetic immunity of broadcast receivers and associated equipments

European Class A Warning

(If the user manual declares the product as Class A, following statement applies.)
This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

TAIWAN

BSMI Class A Notice

The following statement is applicable to products shipped to Taiwan and marked as Class A on the product compliance label.

警告使用者：

此為甲類資訊技術設備，於居住環境中使用時，可能會造成射頻擾動，在此種情況下，使用者會被要求採取某些適當的對策。

低功率電波輻射性電機管理辦法

第十二條 經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。
第十四條 低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾

在5.25-5.35 赫赫帶內操作之無線資訊傳輸設備，限於室內使用

SWEDEN

MPR II Compliance (MPR II applied model only)

This monitor complies with SWEDAC(MPR II) recommendations for reduced electric and magnetic fields.

EU

Eco-Label (EU Eco-Label applied model only)

Products which have model codes that end in XU are intended for the UK market. Samsung has not applied for Ecolabels for products with this specific model code.

EU Ecolabel : HU/022/03

SAMSUNG Electronics makes an effort to develop environment-friendly product that minimizing an impact to environment through whole process from getting raw materials, production, transportation, usage and end-of-life disposal by adding 'environment' on function, price, quality, design that were the essence for product development. These environmental characteristics are endorsed by the award of the European Eco-label (also known as the Euro Flower) issued by the European Commission as approval of the product environmental status for energy saving, facilities for recycling and a host of other features. The full list of criteria and more information on the ecolabel can be found at the web-site address: <http://www.ecolabel.eu>
