KEY FEATURES

Door-in-Door™

For those fly-by visits to the refrigerator, the Door-in-Door™ feature allows you quickly get in and out for easy access to beverages and snacks. Because food can be accessed without opening the entire refrigerator, it reduces cold air loss by up to 47%* to help keep food fresher longer, while conserving precious energy.

Dual Ice Makers

Ice makers are great, but not if it means you can't fit all of your food in the fridge. This refrigerator features dual ice makers, dispensed from the door and located in the freezer compartment, so you never run out of ice. To maximize internal storage space, the Slim SpacePlus® Ice System has been built into the door and allows even more space for door bins.

Slim SpacePlus® Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. The Slim SpacePlus® Ice System provides maximum shelf space** and allows even more space for door bins.

*Percent reduction in exchange rate of air between opening the Door-in-Door™ compared to one French Door for 10 seconds.

**Standard width french door refrigerator, excludes other LG manufactured products.
