

QUALITY & INNOVATION
THAT **INSPIRES**

Accessible Design with Perlick

▶ Perlick proudly offers the industry's widest selection of ADA-Compliant Refrigeration

Perlick leads the market in ADA-compliant refrigeration options. Available in 18- and 24-inch depths, these units measure just 32" tall - a must for accessible design.

Whether designing for aging-in-place, or just looking to add the convenience of undercounter refrigeration to any room of the home, Perlick boasts an impressive selection of door and drawer model ADA-compliant refrigeration to meet the needs for today and for years to come.

▶ See back page for all available ADA height models

▶ KITCHEN

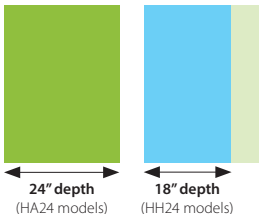

Adding undercounter refrigerators and freezers adds convenient storage that is easier to access than traditional uprights. Choose from door and drawer models, both which feature full-extension, pullout shelves and drawers that pull completely out of the cabinet with ease, thanks to smooth ball-bearing glides. This makes stocking and retrieving product from the cabinets easy.

▶ MASTER SUITE

Add Perlick's new Sottile refrigerator to the master suite to store bottled water, medication and cosmetics. The Sottile's unique 18" front to back measurement is perfect for narrow vanity areas, and it's RAPIDcool™ forced-air refrigeration system operates quiet enough to be in a bedroom.

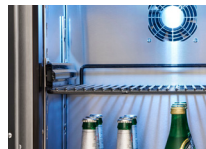

▶ OUTDOOR SPACE

Perlick's new Sottile Series is available as UL-rated outdoor models, making it possible to bring accessible refrigeration to the great outdoors. Stock beverages, fresh food for the grill, or even a collection of wine to enjoy with friends.

MULTIPLE DEPTHS TO CHOOSE FROM

Perlick has ADA models in both 24" and world exclusive 18" depths. This provides incredible design flexibility for projects of all sizes.

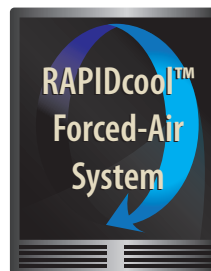

STAINLESS STEEL INTERIORS

Perlick's entire line of undercounter refrigeration boasts stainless steel interiors, providing a sanitary, easy to clean surface that won't harbor odors and bacteria like plastic interiors.

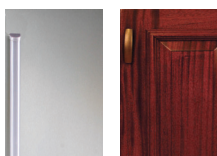

FULL-EXTENSION, PULLOUT SHELVING AND DRAWERS

All Perlick shelves are black vinyl-coated, full-extension pullout shelves and drawers. Shelves fully extend out of the cabinet to make stocking and retrieving product simple. Shelves feature smooth movement in and out of the cabinet on stainless steel ballbearing glides, even when full stocked. Shelves are rated for 75 lbs and drawers are rated for 200 lbs.

ROBUST, FORCED-AIR REFRIGERATION

Product chills in 30 minutes thanks to Perlick's front-vented, RAPIDcool™ forced-air refrigeration system. Cold air circulates throughout the cabinet to maintain consistent temperature anywhere in the cabinet. Because of this, product is perfectly chilled, eliminating ice build up in the back of the cabinet which often happens with units cooled by a cold plate.

CUSTOMIZE THE LOOK

All models come available in stainless steel or fully integrated overlay, ready to accept custom panels to match surrounding cabinetry.

INDUSTRY'S MOST COMPREHENSIVE WARRANTY

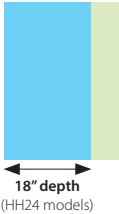

Enjoy peace of mind with Perlick's Full 3 Year Warranty and 6 Year Warranty on Sealed System.
