Stepping into its 25th year . . . the R. Perlick Brass Company announces the occupation of its own modern building . . . and issues this, its largest of all catalogs. From its inception, this organization has been an active partner in the brewing industry . . . with its products serving in every phase of beer manufacturing and dispensing.

Designed by our own engineers, manufactured under our own supervision, right in our own plant, Perlick products are more thoughtfully conceived—more thoroughly built—and more conscientiously sold . . . so that "Perlick Products Please."

R. PERLICK BRASS COMPANY

3110 W. Meinecke Ave., Milwaukee, Wis., U.S.A.

100 YEARS

OF EXCELLENCE IN REFRIGERATION

The Perlick name is synonymous with innovation and unparalleled quality. You've experienced the craftsmanship of a Perlick - at your favorite restaurant, your home team's stadium or first class resorts around the world. We've made a name for ourselves in refrigeration and beverage dispensing technology in the commercial world since opening our doors on Florida Street in Milwaukee, Wisconsin back in 1917. Since then, we've parlayed our expertise into a collection of awarding-winning premium undercounter refrigeration refined for the home.

Digital Temperature Control provides clear, accurate temperature readout

Perlick's Front-vented, RAPIDcool™ Forced-Air Refrigeration System cools product quickly by continuously circulating cold air throughout the cabinet – also providing consistent temperature and eliminating cold spots

Adjustable Cool Blue and Crisp White LED Lighting illuminates product beautifully

WHAT MAKES IT A PERLICK

There is a reason premier showrooms proudly feature Perlick on their showfloors. It's because Perlick craftsmanship is second to none, because we build each and every cabinet by hand with only the finest materials available. Read on to learn more about what makes it a **Perlick**.

Stainless Steel Interiors provide the most sanitary surface available to keep food and beverages fresher – longer.

All models are available with choice of stainless steel or fully integrated overlay. Fully integrated overlay models come ready to accept custom panel to match surrounding cabinetry or finishes.

Full-Extension Pullout Shelves are black vinyl-coated and are height adjustable in one inch increments. Shelves glide smoothly in and out of the cabinet with ease thanks to stainless steel ball bearing glides. They are engineered to allow for proper air flow throughout the entire cabinet - which is something glass shelves cannot achieve

*We stand behind our products, that's why Perlick refrigeration comes with an industry leading **Full Three Year Warranty** plus additional 3 years on sealed system to provide peace of mind for both residential and light commercial applications*

Two-Inch Thick Foamed-in-Place Insulation provides industry leading protection against warm temperatures and vibration

FIND YOUR PERFECT PERLICK

15-, 24- & 48-INCH SIGNATURE SERIES

(Available in solid door, glass door and drawer models with choice of stainless steel or fully integrated overlay)

- Robust refrigeration system powered by Perlick's exclusive variable speed compressor* provides industry-leading cooling capabilities and intuitive temperature control - which means system will only run when it senses a temperature rise
- Front vented, RAPIDcool™ forced air refrigeration system pulls down product temperature in around 30 minutes
- Rated for beverages and open food storage
- Digital temperature control in all models
- Illuminated by dual-color LED lighting, giving you the option of Crisp White or Cool Blue lighting with just the press of a button
- All Signature Series products available as UL-rated outdoor models

**15" models and 24" Freezer models feature standard compressor*

SIGNATURE SERIES SOTTILE

(Available in solid door and glass door models with choice of stainless steel or fully integrated overlay)

- Industry Exclusive undercounter refrigeration that measures just 18" deep with recessed plug.
- Measuring 32" tall, the Sottile collection is ADA Compliant for universal design
- Robust, front vented, RAPIDcool™ forced air refrigeration system pulls down product temperature in around 30 minutes
- NSF rated for open package food
- Digital temperature control in all models
- Illuminated by dual-color LED lighting, giving you the option of Crisp White or Cool Blue lighting with just the press of a button
- All Signature Series products available as UL-rated outdoor models
- Optional riser with 6" toe kick available for standard height cabinetry
- Every single indoor and UL-rated outdoor Sottile model earned a 2015 Award for Design Excellence (ADEX)

Perlick proudly offers the widest selection of undercounter refrigeration products in the industry, making it easier than ever to add point-of-use refrigeration to any space inside – or outside – the home. All Perlick products feature robust refrigeration systems, stainless steel interiors, and our industry best three full year warranty. Below are the highlights of each series to start you off on your search for the perfect Perlick.

C-SERIES

(Available in solid door, glass door and drawer models with choice of stainless steel or fully integrated overlay)

- Powered by energy efficient compressor to offer commercial-grade cooling at an economical price
- Front vented, RAPIDcool™ forced air refrigeration system pulls down product temperature in around 30 minutes
- Rated for beverages and open food storage
- Digital temperature control in all models
- Select outdoor models available

ADA COMPLIANT SERIES

(Available in solid door, glass door and drawer models with choice of stainless steel or fully integrated overlay)

- Measures 32" tall to adhere to ADA regulations for universal design
- Powered by energy efficient compressor to offer commercial-grade cooling
- Front vented, RAPIDcool™ forced air refrigeration system pulls down product temperature in around 30 minutes
- Rated for beverages and open food storage
- Standard temperature control (excluding freezer models that are equipped with digital controller) and incandescent lighting

FREEZERS

When it comes to stylish freezer solutions, Perlick has thought of it all. Quiet, powerful and energy efficient, all Perlick freezers featured forced-air refrigeration and hot gas defrost for maintenance free defrosting.

NEARLY A CENTURY'S WORTH OF BEER DISPENSING EXPERTISE - **RIGHT AT YOUR FINGER TIPS**

The revolutionary new 650SS Flow Control Faucet is Perlick's latest innovation in beverage dispensing – and it is now standard on all Signature Series Beer Dispensers. This newly-designed industry exclusive faucet **allows you to adjust the speed of the pour**, which is important for pouring multiple styles of craft beer or when foaming is an issue.

- *Bright, wheat beers – like Hefeweizen – are highly carbonated and tend to pour with an excessive head, requiring a slower pour. The flow control lever adjusts the rate of the pour right at the faucet, allowing you to control how fast beer enters the glass.*
- *In addition to accommodating a variety of beer styles, the 650SS eliminates waste that is normally caused by foaming in hotter temperatures. Perlick's exclusive air-cooled tower keeps beer cold from the keg to the faucet, and the flow control lever allows you to dictate the rate of flow to prevent excessive foaming caused by cold beer coming in contact with the hot air.*

The 650SS Flow Control Faucet won a 2014 GOOD DESIGN™ Award as awarded by the Chicago Athenaeum: Museum of Architecture and Design

2015 Award for Design Excellence (ADEX) winner

Perlick

24" Signature Series Two Faucet Beer Dispenser with optional Adara Tower, shown above

CLEAR ICE MAKERS

A beverage is only as good as the ice that keeps it cold. That's why Perlick's clear ice maker produces uniquely shaped top hat ice. The shape combined with the way the ice is made ensures each and every piece is free of impurities so that your signature cocktail is the star of the show.

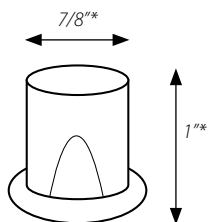

15" Signature Series Clear Ice Maker, shown above

AVAILABLE MODELS | Clear Ice Makers

15" SIGNATURE SERIES

Solid Door 

*approximate size, image not to scale

- Enjoy up to 55 lbs. of ice production per 24 hours
- Storage capacity of 22 lbs. of ice ensures you'll never run out
- Indoor/UL-approved for outdoor use
- Undercounter design features swing style door; wood overlay model door is also reversible
- Easily disassemble water circuit for easy cleaning
- Durable stainless steel exterior
- Optional pump and stainless steel toe kick available
- Full one year warranty

For Perlick model numbers and available accessories, see pages 26 - 35

TIP YOUR CAP TO PERFECT ICE

Each cube features a distinctive and stylish top hat shape which, like the Clear Ice Maker, is more than just attractive - it serves multiple functions. The "top hat" shaped ice is part of Perlick's method of ensuring that each cube is absolutely free of impurities, for a flawless look and taste.

The unique shape is also extremely functional because the top hat design prevents the ice from clumping, guaranteeing that the perfect beverage is served each and every time.
