GE020010
Unperforated cooking insert
GE020020
Perforated cooking insert
VD400000
Stainless steel cover
VZ400700
Vario timer connecting strip 400 series

VK411610
Vario in-counter steamer 400 series
Stainless steel
Width 12"

- Steaming in cooktop size
- Electronic water temperature control from 100 °F to 200 °F, in 5 °F increments.
- Cooking on two levels, without flavor transfer

Features

Two control knobs with illuminated ring, temperature marking and water drain.
Electronic water temperature control from 100 °F to 200 °F, in 10° increments.
Steam cooking level with electronic steam control for pressureless cooking.
Automatic boiling point detection.
Water capacity 1 - 6.4 quarts (1 - 6 liters).
Motor-driven 1/2" water drain valve
Safety lock.

Planning notes

Built-in control panel can be integrated in the bottom cabinet at drawer level.
Front panel thickness 5/8" - 1".
The details below must be observed if the panel is more than 1" thick (there must be a recess at the rear for proper control module installation).
The minimum distance from the appliance edge to the wall or furnishing components must be at least 2".
A ventilation hood must be installed when an upper cabinet is installed above the electric in-counter steamer.
If a cover is fitted, the glass lid must be removed when closing it.
Clamping range: 1 13/16" - 2".
Seal the worktop cutout.
VK 411 and VF 411 must not be installed directly next to one another.

Rating

Total rating: 1.8 kW
Plan for a connecting cable.
