VZ400700
Vario timer connecting strip 400 series
Stainless steel

- Connecting strip with integrated timer modules - inconspicuously integrated between Vario cooktops.
- Timer function for 2 Vario cooktops next to each other.
- Short-term timer.

Features

Free-running timer or programmable cooking end -the familiar convenience of an oven.
Time setting range of each timer: 1 - 90 min.
A maximum of 2 electric appliances can be switched to 1 connecting strip, with 1 setting for each.
The rear timer unit is connected to the appliance on the right, and the front timer to the appliance on the left.

Planning notes

Only suitable for the installation between two electric Vario cooktops. The VZ 400 must be combined with at least with one Vario electric appliance. Gas appliances cannot be controlled. To avoid any risk of burning when the grill is hot, it is not recommended to install the VZ 400 next to a VR 421. The VZ 400 must not be installed between two VR 421 appliances. Cannot directly be combined with the termination strip AL 400 000.
Included:
1 power cable (length approximately 78"),
2 connecting cables (length 39") to connect the timer unit to 2 Vario control displays (appliance on the right and appliance on the left),
1 cable to connect both timer units together (length 19").
Plan a socket.

Rating

Total rating 5.0 W.
