ZEPHYR VENTILATION

ARC CHENG ESSENTIALS

DISCOVER ZEPHYR

We're driven by the idea that everything in the home is an opportunity for personal expression.

That's why we've raised the kitchen hood to its rightful place as a distinctive design element that also delivers powerful ventilation performance.

We work with some of the world's best designers—those who find constant inspiration in the world around them and whose belief in everyday beauty inspires their unrivaled collections.

ZEPHYR

LOOK BEYOND THE EXPECTED, AND TOGETHER
WE'LL DISCOVER NEW POSSIBILITIES.

INTRODUCING DCBL SUPPRESSION SYSTEM™

Next Generation Europa range hoods have been upgraded with a sound-suppressing, performance-enhancing, technology-embracing package we call DCBL Suppression™.

DCBL Suppression™ technology increases CFM output by 30% on working speeds, while cutting noise emission by more than half.

All Next Generation Europa range hoods use up to 80% less energy, while working harder for you. For example, we include the industry's first dimmable light-emitting diodes (LED) light bulbs: Bloom™ HD LEDs, which have a 68-year lifetime and come with a 3-year warranty.

Do your part to reduce energy consumption with DCBL Suppression™, and upgrade your expectations of what a range hood can do.

WHAT'S INSIDE

Discover Zephyr's unique and diverse portfolio of design-focused, performance-driven range hoods. Inside this catalog you'll find ideas that will capture your imagination as well as all the necessary information to help you choose the perfect range hood for your kitchen.

EUROPA, POWER, BREEZE

Essentials Collection range hoods make cooking more enjoyable and provide the greatest value in kitchen ventilation and design.

Pure Geometry. Quiet Performance. Clean Air.

We get it. You don't compromise on your home. Your cuisine. Your décor. And there will be no compromise on your range hood. That's our vision. Working together with industrial designer Robert Brunner, we've paired elegantly minimalist structures with ground breaking engineering to write a new chapter in range hood design—one that's as much about clean air as it is about clean lines.

ARC
COLLECTION

BEHIND THE DESIGN

Transformative. Revolutionary. Game Changing.

Statements like these have followed Robert Brunner throughout his career—initially as founder of Apple’s first industrial design group, later as a Pentagram partner and today as co-founder of Ammunition Design Group.

His passion for fusing lifestyle with innovation is evident in his work as designer of the Fuego outdoor grill, the BEATS headset in collaboration with Dr. Dre—and now, as the designer behind the Arc Collection.

EXCEPTIONAL FEATURES UNIQUE TO THE ARC COLLECTION

- CleanAir puts indoor air quality first with quiet, automatic air that refreshes at regular daily intervals
- Custom design options for glass surface colors, patterns and fine woods (see details on page 28)
- Sleek memory touch glass controls, remote control and tri-level halogen lighting
- Five-minute auto delay-off
- Comprehensive blower options: 600-CFM internal blower and 1000-CFM in-line or external blower
- Optional recirculating kit for ductless venting
- A 290-CFM blower for balance and energy savings in well-insulated homes

An ingenious remote control device, worthy of the finest countertops, commands power and light from as far as fifteen feet away.

HORIZON wall

A dramatic, low-profile free fall just inches from the kitchen wall sweeps upward in a thirty-degree lift. So begins Robert Brunner’s minimalist range hood with enticing customization options.

- Choose striking red, black or white glass on stainless steel
- Select etched patterns—a leaf motif on white glass or flowers on black glass—applied to the removable front panel that doubles as easy blower access
- Complete the picture with a duo of halogen lamps

*CleanAir turns your hood on once every four hours for 10 minutes on speed one.

**10" round duct connects to external and in-line blower. Must transition from 10" to 8" before duct passes through ceiling. A 10" to 8" adapter is included with the external and in-line blowers.

PLANE wall

With its steep incline of intersecting planes from designer Robert Brunner, this range hood makes a powerfully simple geometric statement that’s understated, but never hidden.

- Select red, black or white glass on stainless steel
- Underscore the contemporary profile with a trio of halogen lamps

LAYERS wall

A streamlined fusion of black or white glass and stainless steel form the eponymous layers in Robert Brunner’s reimagining of a classic range hood form.

- Select black or white glass layered on stainless steel
- Slim profile and a quartet of halogens enhance the floating effect unique to this wall-mounted hood
- Convenience and indoor air quality take precedence with five-minute auto delay-off and CleanAir

DUO wall

A visionary duo of materials marries the warmth of wood with the cool factor of stainless steel in a fresh—and welcome—creation for the contemporary kitchen.

- Optional charcoal or wenge finish on poplar wood to complement your cabinetry, or a low-profile steel-only option
- Choose wood in either 5/8” or 1 5/8” profile height
- Dual halogens highlight the work below

EDGE wall

Dimensionality gets an edge with this seamlessly finished, beveled stainless steel canopy, inspired by a wing’s distinctive airfoil shape and perfectly befitting a ventilation device.

- Optional charcoal or wenge finish in poplar wood to complement your cabinetry, or a low-profile steel-only option
- Choose wood in either 5/8” or 1 5/8” profile height
- Integrated black glass controls, twin halogen lights and stainless steel filters lend a decidedly professional air

SURFACE wall

For minimalism with depth and contrast, dark glass lends dramatic flair to the contemporary stainless steel kitchen. No angles here. Just clean, straight lines.

- Stainless steel chimney bisected by a slim plane of transparent gray glass
- Dual halogen lights illuminate the activity on the surface below

TILT wall

A contemporary sculpture for the kitchen, Tilt’s sextet of subtly angled panels meets in a layered array to form a hinged range hood canopy like no other.

- Available in stainless steel or sleek powder-coated black
- Front panel lifts for convenient blower access
- A duo of halogen lamps provide the perfect accent to this powerful statement

LAYERS island

Robert Brunner’s bold take on the classic island range hood form is a streamlined fusion of glass and stainless steel that lends new meaning to leading edge.

- Select black or white glass layered on stainless steel
- Slim profile and quartet of halogens enhance the floating effect
- Optional duct cover extensions accommodate contemporary loft-style ceilings up to 12’

CUSTOM DESIGN OPTIONS

Glass. Steel. Wood. And air. Minimalism is more than a box. It’s elemental.

And it doesn’t have to be all right angles. That’s the inspiration behind our newest collection: simple geometry organized in exciting new ways. And classic materials crafted to afford a host of customization options that give homeowners, designers and contractors unprecedented flexibility.

FINE WOOD OPTIONS

Select poplar wood in charcoal or wenge finish to complement your cabinetry, or a low-profile, steel-only option. (Note: wood attachments have separate model numbers from hoods.)

CHARCOAL FINISH
 DUO ISLAND - AUW-00CH (1 5/8", 90CM), AUW-01CH (1 5/8", 42")
 DUO WALL - AEW-00CH (5/8"), ADW-00CH (1 5/8")

Individual. Elegant. Inspired.

The industry’s first designer range hood collection, the Cheng Collection was inspired by Fu-Tung Cheng’s passion and artistry. One of the most influential kitchen and bath figures of the past 50 years, Fu-Tung’s aesthetic embodies Zephyr’s philosophy that design should evoke emotion.

CHENG COLLECTION
Fu Tung Cheng

BEHIND THE DESIGN

Reaching Greater Heights in Beauty and Design

At Zephyr, great design is never an afterthought or a luxury. It's a way of life. That's why we've partnered with world-renowned designer Fu-Tung Cheng to create a visionary collection that fuses elegant design with powerful performance. Learn more about Cheng Design by visiting chengdesign.com

CHENG COLLECTION

Each Cheng Collection hood is designed to complement today's most prestigious cooking ranges with distinctive features you won't find in any other hood collection:

- A marriage of professional-grade hood performance with designer aesthetic
- Customizable options that enhance your personal style
- A choice of internal or external blowers
- Cooking and ambiance lighting to accentuate your stunning kitchen design

Photo credit: Matthew Millman

PADOVA wall

The world’s first customizable range hood is ready for the materials of your choice. Whether you prefer mosaic tile, ribbed glass, copper, zinc, stainless steel or the infinite possibilities of Italian or Japanese plaster, you’ll have a hand in making Padova a signature addition to any home.

- Create your own custom canopy using colors and materials that coordinate with any kitchen design
- Choose your canvas canopy in stainless steel or brass to help highlight your kitchen decor
- Ribbed glass side panels set the mood with gentle ambient light to complement the dual-level halogens used when cooking

OKEANITO wall

In perfect parts vision, whimsy and discipline, the Okeanito never goes unnoticed. This refined, sweeping hood balances softness and fluidity with striking linear elements to create a timeless design. Perforated side panels allow the Okeanito to radiate gentle ambient light, infusing its surroundings with a sense of grace and calm.

- Bring a glow to your kitchen with low light streaming through perforated side panels
- Illuminate your cooking area with dual-level halogen lighting

TRAPEZE island

As the premier Cheng island hood, the light and airy Trapeze is a streamlined reprieve from its bulky, conventional counterparts. Using a delicate suspension structure, the Trapeze seems to float in midair. With directional halogen lighting and a graceful, slow-curve canopy, the Trapeze is more than a focal point—it’s a bold statement.

- Make a statement with the elegant, curvilinear design
- Illuminate your cooking area with directional halogen lighting

CACHE under-cabinet

Another stylish new concept from Fu-Tung Cheng is the Cache with its subdued design that eschews clutter and infuses your kitchen with ordered elegance. Beneath its sweeping, understated hood and signature utensil rail, the Cache hides a spacious storage compartment—perfect for housing herbs, spices, and other culinary necessities.

- The collection’s first under-cabinet design offers simplicity and practicality
- Herbs, spices and culinary devices are within reach, yet out of sight

INTRODUCING

Next Generation Europa + DCBL Suppression System™

Since 2001, Zephyr’s Europa Collection has been the standard by which the industry measures itself. Combining European design with American performance, Europa is the best of all worlds. A part of the Essentials Collection, the Next Generation Europa symbolizes our unyielding dedication to progress, to innovative design and using technology to deliver better products.

ESSENTIALS

Our newly revamped Essentials Collection features the very best in kitchen ventilation. From the new Next Generation Europa to the original filterless Power Series range hoods, Zephyr covers your needs.

NEXT GENERATION EUROPATM WITH DCBL^e SUPPRESSION SYSTEMTM

HOW DO YOU IMPROVE UPON THE CLASSICS?

When Zephyr introduced the Europa Collection to the US market in 2001, it proved to be the first of its kind. We brought style and performance together and challenged the perception that ventilation was an afterthought.

Through the years, the Europa Collection has been our core strength. That’s why it’s fitting to elevate the classic Europa designs into our Next Generation Europa on the tenth-year anniversary of its creation. Looking to add value and evolve performance to unprecedented heights, the Next Generation Europa, once again, redefines what a range hood can be—while setting the innovation bar higher than ever before.

MORE POWER. LESS NOISE.

DCBL Suppression SystemTM increases your range hood’s torque at speed one, also known as working speed, to match the most typical cooking styles. By focusing on working speed, it allows us to deliver the needed ventilation for cooks using one or two burners to prepare a meal. On working speed, DCBL Suppression SystemTM generates 250-CFM at 0.8 sonos—enough power to handle a 10,000 BTU and one 15,000 BTU working on maximum capacity. In short, you get the CFM you need but none of the noise you would expect.

MORE FEATURES. MORE ENERGY EFFICIENCY.

Next Generation Europa range hoods have been upgraded with features that make them the quietest, best performing and most advanced models available today. Features like the first-ever range hood direct current, brushless motor, high-powered BloomTM HD LED light bulbs, electronic LCD controls and our fully integrated on-board computer optimize the range hood’s performance.

Despite the addition of such advanced electronic technology, these new features actually help reduce the hood’s energy consumption by up to 77% over traditional AC motor range hoods.

All Next Generation Europa range hoods are designed with an integrated PC board that enhances the hood’s performance and helps limit the effect of increased static pressure resulting from out-of-scope duct runs.

DCBLTM MOTOR

WHAT’S INSIDE DCBL SUPPRESSION SYSTEMTM

Direct current brushless (DCBLTM) motor technology—direct current, brushless motors work on a much cleaner and more stable energy source that causes less wear-and-tear on your range hood’s motor. DCBL’sTM use of a permanent magnet allows electricity to be conducted without the use of brushes or metal contacts that produce heat and friction—the main perpetrators of parts failure, noise and wasted energy. DCBL’sTM permanent magnet design also enables us to increase the motor’s torque at lower speeds so that your range hood can move more air, while operating quietly on working speed settings.

BLOOMTM HD LED

BLOOMTM HD LED LIGHT BULBS

With a 68-year lifetime, BloomTM HD LED light bulbs are an industry breakthrough and unmatched in performance, light emission and value. Designed in partnership with professional camera lens designers, BloomTM HD LED light bulbs amplify a 3-watt diode into 20-watt halogen-like cooking light that evenly distributes the radiance on the cooking surface below.

*Compared to typical chimney range hood.

VERONA wall

Verona is topped with a straight glass canopy that also serves as an ambiance setting LED display. Select the Cloud White, Deep Blue and Amber color options to best match your kitchen's décor, or choose the Demo mode that displays all three settings in 10-second intervals. A Next Generation Europa model, Verona includes Zephyr's DCBL Suppression System™ with Bloom™ LED light bulbs and LCD display controls.

ESSENTIALS

MILANO wall

One of the original curved-glass canopy range hoods, Milano has become an icon by virtue of its timeless design. Now upgraded with Zephyr’s DCBL Suppression System™, Milano takes range hood detail and performance to higher grounds. Outfitted with three Bloom™ HD LED light bulbs and electronic LCD controls, Milano is as relevant today as it was the day we introduced it in 2001. Canopies available in clear and smoked-gray glass, and stainless steel.

ANGOLO wall

Angolo’s downward facing, angled canopy brings elegance to this fun and airy range hood. Part of the Europa Classics, Angolo comes equipped with Electronic LED controls, a 600-CFM motor and rear-mounted dual-level halogen bulbs. So if your design calls for a range hood with high-level performance and features, but not the mass of an all-stainless design, Angolo fits the bill.

ANZIO wall

At home in either traditional or contemporary kitchens, Anzio is a low-profile, chimney-style range hood that will add style and value to any kitchen. Peaking at just over 5 1/4", the pyramid-like structure houses a powerful 600-CFM fan that quietly operates at 1.8 sones on the most common working speed. The three-speed fan is controlled by elegant, die-cut chrome electronic controls that are illuminated by LED indicator lights and prove to be an upgrade over most similarly priced range hoods.

- Ultra-quiet 600-CFM blower
- Electronic LED controls
- Telescopic ducting up to 9.5' standard, optional ducting available up to 12'

SAVONA wall

Savona’s semi-circular surfaces accentuate this range hood’s European design with delicate reflections of light and shadows. However, underneath the 11” tall body, Savona features a robust 685-CFM fan that operates at ultra quiet 1.8 sones on normal working speed. Gifted with great additions like the optional recirculation kit, duct cover extension up to 12’ and dual-level halogens, it’s hard to improve on this classic. But the three-speed, die-cut chrome electronic controls with LED illumination take Savona to an elite level.

- Three adjustable speed levels give you the ventilation power you need
- Dual halogen lamps illuminate the cooking surface below
- Upgraded LED electronic controls make it easy to alter your lighting preferences
- Available in powder-coated black

ESSENTIALS

TORINO island

Torino's sculpted glass island canopy takes its shape from the simple elegance of the martini glass and was originally inspired by Italy's post-war fascination with American pop culture. The frosted green canopy and conical chimney are sure to turn a few heads, as will the electronic touch controls and an infrared remote that put you in charge of lighting and the six-speed internal blower from a distance.

- Sculpted glass lends a free-form look to today's contemporary kitchen
- Touch-sensitive controls and infrared remote adjust the lights and six-speed internal blower

ROMA island

A sharp, angular island design as distinctively bold as its namesake city, Roma’s sleek shape is ideal for the savvy renovator, the discerning high-rise developer or the builder who buys in mass but won’t skimp on quality. Designed with the innovative Quick-Lock installation system, Roma island can be set up in as few as 20 minutes. A 600-CFM ultra quiet fan and three-speed electronic controls with LED illumination make cooking with Roma as pleasant an experience as admiring its contemporary European style.

- Roma’s Quick-Lock hanging system ensures one of the easiest island-hood installations on the market
- A quartet of halogens illuminates the island below
- Optional duct extension kit is available for ceilings up to 12’

GENOVA under-cabinet

Tucked neatly beneath your bridge cabinet, Genova quietly works out of sight. Powered by the strength of its 500-CFM fan, Genova’s crescent-like body delivers stunning design and quality performance. Its retractable visor helps in the capture of air and puts control at your fingertips, requiring just a pull of the visor to manage the hood’s motor and lights. Packed with upgraded features like three-speed electronic controls, dual-level halogen lights and an optional recirculation kit, the wireless remote control almost seems gratuitous. Genova is perfect for kitchens that require a more discreet look.

- Three-speed electronic controls with optional wireless remote control
- Dual-level halogen light bulbs
- Optional recirculating kit

PYRAMID under-cabinet

Classic, architectural lines meet at an apex to energize the familiar look of the chimney-style under-cabinet hood. This expressive yet utilitarian design also features an adjustable back panel utensil rail that accommodates a variety of cabinet depths to put cooking gear within easy reach. New control configuration and 12” cabinet mounting depth ensure simple operation and a true fit with popular cabinet styles. Available in white and black color options.

SORRENTO downdraft

Ideal for small kitchens or for island settings where ceilings are too high for ducting, Sorrento rises to the occasion. The brushed stainless steel filter unit houses quiet, efficient centrifugal blowers. An automatic heat sensor adjusts blowers in high-heat conditions. Optional 30” and 36” widths accommodate most cooktops and standard cabinetry.

- An automatic heat sensor adjusts blowers in high-heat conditions
- The press of a button lets you conveniently raise and lower Sorrento

ESSENTIALS

TYPHOON under-cabinet

One of the inspirations for founding Zephyr Ventilation was our deep desire to update the strict geometry of the under-cabinet range hood. For Typhoon, we crafted a smooth, sophisticated curvature. Then we pumped up the volume with a powerful, virtually noise-free 850-CFM blower. The addition of dimmable halogen lights provides you and your guests with a warm respite from the everyday.

- Centrifugal blowers liquefy cooking residue to make cleaning a snap
- Match your kitchen’s mood with white, bisque, black or stainless steel finishes

TEMPEST I pro-style

A streamlined under-cabinet pro-style range hood, Tempest I combines power, efficiency and flexibility. Industrial-strength, high-airflow baffle filters that are dishwasher-safe ensure a lifetime of exceptional performance. Additional options like a heat lamp kit and a recirculation kit for kitchens that require ductless venting ensure all you have to think about is the cooking.

- Dishwasher-safe, high-airflow baffle filters and an optional heat lamp kit enhance the professional-grade aesthetic
- Multiple internal blower and recirculation options meet the most powerful and diverse ventilation needs
