

CHENG COLLECTION

At Zephyr, good design is never an afterthought or a luxury. It's a way of life. That's why we have partnered with some of the world's most renowned designers, like Fu Tung Cheng, to deliver distinctive hoods that bring our philosophy to life—offering designs that embrace the individuality of those who make them, and enliven the spirits of those who will live with them.

True beauty lies in the balance of art and function, simplicity and elegance, shape and texture. No single element should be overlooked—no matter how slight its purpose. These beliefs are at the heart of Cheng Collection—a series of bold, unique, and inspired hoods that we hope will inspire you to live more fully every day.

individual. elegant. inspired.

WHEN I FIRST MET MY FRIENDS AT ZEPHYR, I was struck by the similarity of our visions and our common belief that design can be transformative. This has led us to develop an inspired series of hoods that I hope will open people's minds and change the way they see the world around them.

I invite you to explore all of the Cheng Collection hoods, and join us in discovering the riches locked inside ordinary objects.

Enjoy!

OKEANITO

The perfect marriage of vision, whimsy and discipline, the Okeanito never goes unnoticed. The graceful, sweeping hood offers fluidity and softness, perfectly balancing the cool linear elements of this timeless design—infusing its surroundings with a sense of grace and calm while ambient light radiates through hand-perforated side panels.

PADOVA

Inspired by Italy's timeless architectural aesthetic, the Padova invites your originality and vision. This new concept from Fu-Tung Cheng is designed to be customized with the materials of your choice. So whether you prefer mosaic tile, ribbed glass, or the many possibilities of Italian Marmorino plaster, you will have a hand in making Padova a signature addition to your home.

SHADE

The Shade fuses Cheng's drive for expression with his playful ingenuity, offering elegant curves, handcrafted details, and integrated front panels that provide endless interchangeable options such as ribbed glass, bamboo, copper and wood. As organic as the seasons, the Shade is a creative counterpart to your home's evolving identity—even offering a hinged canopy that can be tucked away when not in use.

TRAPEZE

Our first island hood, the light and airy Trapeze is a streamlined reprieve from its bulky, conventional counterparts. Using a delicate suspension structure, the Trapeze seems to hover delicately in mid-air. With a graceful, slow-curve canopy and directional halogen lighting, the Trapeze is more than a focal point—it's a statement.
