VISION + VENTILATION
FOR THE CONTEMPORARY KITCHEN

ARC › ZEPHYR
COLLECTION

MEET THE ARC COLLECTION

ARC COLLECTION'S SLEEK, MINIMALIST AESTHETIC IS AS MUCH ABOUT CLEAN AIR AS IT IS ABOUT CLEAN LINES

PURE GEOMETRY. QUIET PERFORMANCE. CLEAN AIR.

Who knew the next must-have technology would be a kitchen appliance? We did. That's our vision. For over ten years we've dreamed the future of kitchen ventilation, and now, technology meets the appliance in the Arc Collection.

GLASS. STEEL. WOOD. AND AIR.

Minimalism is more than a box. It's elemental. And it doesn't have to be all right angles. That's the inspiration behind our newest collection: simple geometry organized in exciting new ways. Classic materials crafted to afford a host of customization options. And technology that holds indoor air quality to a higher standard.

THE ARC OF THE ZEPHYR STORY

ZEPHYR HAS EARNED A REPUTATION AS THE COMPANY THAT CHANGED KITCHEN VENTILATION FOR GOOD. JOIN US AS WE LOOK INTO THE FUTURE TO DEFINE OUR NEXT TEN YEARS—AND BEYOND.

First 10 Years: What More Can a Range Hood Be?
For the first ten years, we’ve asked ourselves that question and have come up with some unexpected answers that have helped drive an entire industry forward:

2001

EUROPA COLLECTION
Zephyr brought Italian style to U.S. kitchens, using sculpted glass and stainless steel to give homeowners and designers options that were simply unavailable at the time.

2004

FU-TUNG CHENG
In a one-of-a-kind partnership with renowned architect and design innovator Fu-Tung Cheng, we launched the world’s first designer collection of range hoods.

2005

DAVID LEWIS
A one-two punch that reinforced our reputation for exclusive designer partnerships, with high-fashion Italian hoods designed by Sir David Lewis of Bang & Olufsen fame.

2008

ROBERT BRUNNER
With designer Robert Brunner, we’ve created an iconic collection that will inform Zephyr’s path to the future—and the next ten years of ventilation design.

Next 10 Years: Expect More. But Never the Same.
Having redefined the trajectory of kitchen ventilation with sophisticated, design-driven products, we again ask ourselves—and you—what more can a range hood be? Join us as we look into the future to define our next 10 years—and beyond.

ARC

WE GET IT. YOU DON'T COMPROMISE ON YOUR HOME. YOUR CUISINE. YOUR DECOR. AND THERE WILL BE NO COMPROMISE ON YOUR RANGE HOOD. WORKING TOGETHER WITH INDUSTRIAL DESIGNER ROBERT BRUNNER, WE'VE PAIRED ELEGANTLY MINIMALIST STRUCTURES WITH GROUNDBREAKING ENGINEERING TO WRITE A NEW CHAPTER IN RANGE HOOD DESIGN—ONE THAT'S AS MUCH ABOUT CLEAN AIR AS IT IS ABOUT CLEAN LINES.

BEHIND THE DESIGN

TRANSFORMATIVE. REVOLUTIONARY. GAME CHANGING.

Statements like these have followed Robert Brunner throughout his career—as founder of Apple's first industrial design group, later as a Pentagram partner and today as co-founder of Ammunition Design Group.

His passion for fusing lifestyle with innovation is evident in his work as designer of the Fuego outdoor grill, the BEATS headset in collaboration with Dr. Dre—and now, as the designer behind the Arc Collection.

COMMON FEATURES

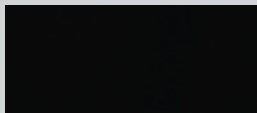

EXCEPTIONAL FEATURES UNIQUE TO THE ARC COLLECTION

AT ZEPHYR, WE TAKE PRIDE IN OUR HERITAGE OF BRINGING MORE TO THE RANGE HOOD THAN ANYONE EVER THOUGHT POSSIBLE. BECAUSE WE WANT TO ENSURE THE BEST POSSIBLE EXPERIENCE, WE OFFER THESE DECIDEDLY UNCOMMON FEATURES ON ALL OF OUR ARC COLLECTION DESIGNS:

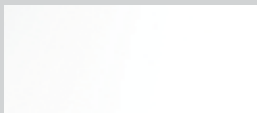

Exciting Custom Design Options:

- Specify glass surface options in black, white or red for Horizon
- Choose black or white glass for Plane and Layers
- Specify pattern details for Horizon's black or white glass surfaces
- Select poplar wood options in charcoal or wenge finish for Duo and Edge

BLACK GLASS
Horizon, Plane, Layers

WHITE GLASS

AN INGENUOUS REMOTE CONTROL DEVICE, WORTHY OF THE FINEST COUNTERTOPS, COMMANDS POWER AND LIGHT FROM UP TO FIFTEEN FEET AWAY.

CleanAir:

We believe indoor air quality is critical to our everyday well-being. That's why each Arc Collection range hood may be programmed to automatically power on at low speed to quietly refresh the air, once every four hours, for ten minutes at a time.

- Just press the power button for five seconds, and when the recycle light blinks, you'll know the CleanAir function is making a difference
- CleanAir is capable of refreshing the air in a 12' x 12' kitchen about ten times daily

Advanced Controls + Tri-Level Halogen Lighting:

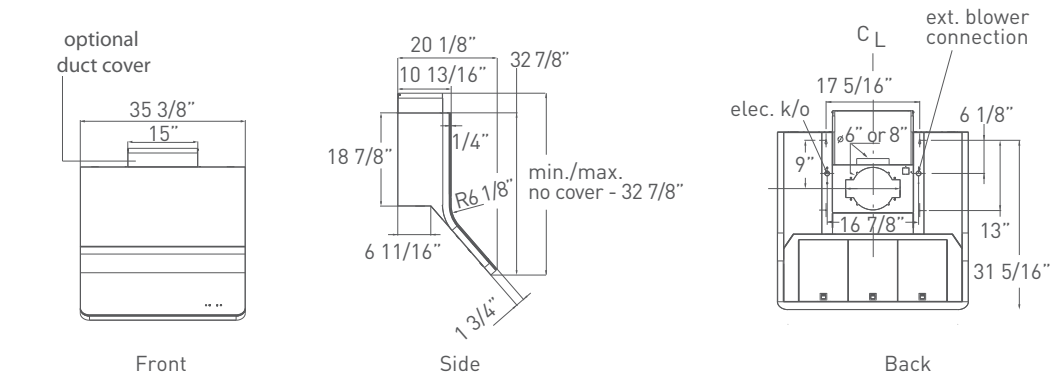

- Sleek Memory-Touch Glass Controls ensure clean design that's easy to keep clean
- Our ingenious Remote Control, worthy of the finest countertops, commands power and light from up to fifteen feet away
- Three lighting levels set the right mood, from mellow to bright

Five-Minute Auto Delay-Off:

- Simply touch the automatic delay-off icon once to activate
- The hood powers down after the five-minute cycle is complete or when the delay-off icon is touched again

Comprehensive Blower Options:

- Your choice of a 600 CFM internal blower or a 1000 CFM in-line or external blower options
- Optional recirculating kits are available for kitchens that require ductless venting
- We also offer a 290 CFM option as a simple way to balance the indoor environment and save energy in well-insulated homes

HORIZON WALL AHZ-M9OABX, AHZ-M9OARX, AHZ-M9OAWX

A dramatic, low-profile freefall just inches from the kitchen wall sweeps upward in a thirty-degree lift. So begins Robert Brunner's new-minimalist range hood, in striking red, black or white glass on stainless steel. The glass surface may be etched in one of our patterns—a leaf motif on white glass, or links on black glass. The removable front panel doubles as easy blower access for cleaning or service with no heavy lifting. A duo of halogens completes the picture.

SIZE: 36"

	internal	cfm	290, 600 CFM		6"		3.2, 6
	external		1000 CFM		8"		
	in-line		1000 CFM		8"		

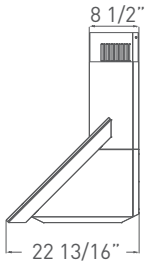

PLANE WALL APN-M9OABX, APN-M9OAWX

A steep incline of intersecting planes from designer Robert Brunner, this range hood makes a powerfully simple geometric statement—in black or white glass and stainless steel. Uniquely understated, but never hiding, Plane’s contemporary wall-mount profile is nicely underscored by a trio of halogen lamps.

LAYERS ISLAND ALL-M9OABX, ALL-M9OAWX, ALL-E42ABX, ALL-E42AWX

Robert Brunner’s bold re-imagining of a classic island range-hood form is a streamlined fusion of black or white glass and stainless steel. A slim profile and a quartet of halogens enhance the floating effect to lend new meaning to leading edge. Optional duct cover extensions can accommodate contemporary loft-style kitchens with ceilings of up to 12 feet.

LAYERS WALL ALA-M9OABX, ALA-M9OAWX, ALA-E42ABX, ALA-E42AWX

A streamlined fusion of black or white glass and stainless steel form the eponymous layers in Robert Brunner's re-imagining of a classic range-hood form. The slim profile and dual halogens enhance the floating effect unique to this wall-mount hood, while softening the lines just enough to lend new meaning to leading edge.

DUO ISLAND ADL-M9OASX, ADL-E42ASX

Ideal for those who welcome the warmth of wood into their contemporary home, Duo is an island range hood that marries natural wood with the cool factor of stainless steel. Envision a steel structure topped with poplar wood in a charcoal or wenge finish to complement your cabinetry. Or you can perfectly match your kitchen's modern stainless surroundings with the low-profile steel-only option. Dual pairs of halogen lights work together to underscore the cantilevered design, while optional duct cover extensions can accommodate contemporary ceilings of up to 12 feet.

SURFACE ISLAND ASL-E42ASX, ASL-E48ASX

No angles here. Just clean, straight lines bisected by a slim plane of transparent gray glass. For minimalism with depth and contrast, dark glass always lends drama to the contemporary stainless steel kitchen. Four halogen lights and a remote control put this wall-mount range hood’s reflective play of power and light right in your hands.

DUO WALL ADU-M9OASX

A visionary duo of materials marries the warmth of wood with the cool factor of stainless steel in a completely fresh—and welcome—creation for the contemporary kitchen. This wall-mounted range hood design may be topped with poplar wood in a charcoal or wenge finish to complement your cabinetry. Or you can perfectly match your kitchen's modern stainless surroundings with the low-profile steel-only option. Dual halogen lights work in tandem to highlight the work below.

EDGE WALL AED-M9OASX

Dimensionality gets an edge with this striking canopy design inspired by a wing's distinctive airfoil shape—perfectly befitting a ventilation device. The beveled stainless steel structure is seamlessly finished with integrated black glass controls, twin halogen lights and stylish stainless steel filters, lending this wall-mount range hood a decidedly professional air. Select poplar wood in a charcoal or wenge finish to complement your cabinetry, or choose the low-profile steel-only option for a perfect match with your kitchen's modern stainless look.

TILT WALL ATI-M9OABX, ATI-M9OASX

A contemporary sculpture for the kitchen, Tilt's sextet of subtly angled panels meet in a layered array to form a hinged range-hood canopy like no other. An upwardly mobile front panel lifts for convenient blower access without heavy lifting whenever cleaning or service is required. Dual halogen lamps provide the perfect accent to this powerful wall-mounted statement, clad in your choice of all-stainless steel or stainless underscored with a sleek, black powder coat.
