CONVENIENCE

- Cool Tight Door
- Door Alarm
- Water Filter Indicator

DESIGN/STYLE

- 33" Wide
- French Door Configuration
- Guggenheim Technology
- Contoured Door Design
- Mid Convertible Drawer
- Hidden Hinges

SAMSUNG

RF4267HARS

25.5 cu. ft. Four-Door French Door Refrigerator with external Water and Ice Dispenser

GUGGENHEIM TECHNOLOGY

Samsung's Guggenheim technology has reduced the refrigerator wall thickness to expand thermal storage space. This unique advance in efficiency creates a slim yet reinforced body that is strong to insulate as well, if not better than conventional designs. Thinner walls give you more storage capacity within your kitchen's existing design space.

FLEX ZONE MID CONVERTIBLE FOURTH DRAWER

The new Flex Zone Mid Convertible Drawer with adjustable Smart Divider is a convenient counter-level height fourth drawer with EZ-Open Handle. This advanced design creates up to four size adjustable compartments within the drawer for the ultimate in organization. With four different temperature settings, you can store meats at -2 °C, cold drinks at 1 °C, deli/snacks for your kids at 3 °C, or party dishes at 5 °C, conveniently accessible for any occasion.

TWIN COOLING PLUS SYSTEM®

Samsung's Twin Cooling Plus System® uses two evaporators while keeping the efficiency of a single compressor to independently control the temperatures of the refrigerator and freezer compartments. By maintaining proper humidity levels, it keeps foods fresher longer and prevents odour transfers between compartments.

EZ OPEN HANDLE™

Samsung's unique EZ-Open Handle™ makes opening the freezer door a breeze no matter how full, by simply lifting and pulling the handle to open without requiring any extra effort. In addition, the sliding, spill-proof shelves are both convenient and easy to clean.

EXTERNAL ICE AND WATER DISPENSER

The Samsung Ice and Water dispenser provides a uniquely-tall opening so pitchers and tall decorative glasses can be filled quickly and easily. No matter what you're drinking or pouring from, it's all right here at your fingertips. The external ice and water dispenser also serves as a filter, ensuring that plenty of filtered water, crushed ice and cubed ice is always on hand.

LED TOWER LIGHTING

Unlike most refrigerators, Samsung refrigerators feature sophisticated, eco-friendly LED lighting inside. Innovative LED Tower Lighting makes locating and identifying items much more easy by illuminating every corner of the refrigerator while also saving valuable storage space. And because LED lighting emits less heat, it never competes with the cool climate inside.

FRESH FOOD: 14.9 CU.FT

- LED Lighting Illumination
- 2 Clear Crispers w/ White Trim
- 2 Clear Gallon Bins
- 3 Half-Width Spill Proof Shelves with Half-Width Foldable Shelf

FLEX ZONE (MID-CONVERTIBLE DRAWER): 3.5 CU.FT
