

WAVE ISLAND

COLLECTION SERIES

Wave filters light, gently through undulating spaces cut into a stainless steel surface; a minimalist style light source, with a simple shape enriched by high-quality materials and a subtle radiance. Much more than a stylish stainless light fixture, Wave is actually a highly efficient range hood. All possible due to Elica's patented Evolution system.

Wave offers a 350 CFM blower, halogen lighting and a high efficiency filter system that effectively removes cooking grease, heat, smoke and odours, with only a whisper of sound (.3 sones at speed 1) and does all this without dominating the kitchen or obstructing the glorious views outside.
